USAID
FROM THE AMERICAN PEOPLE

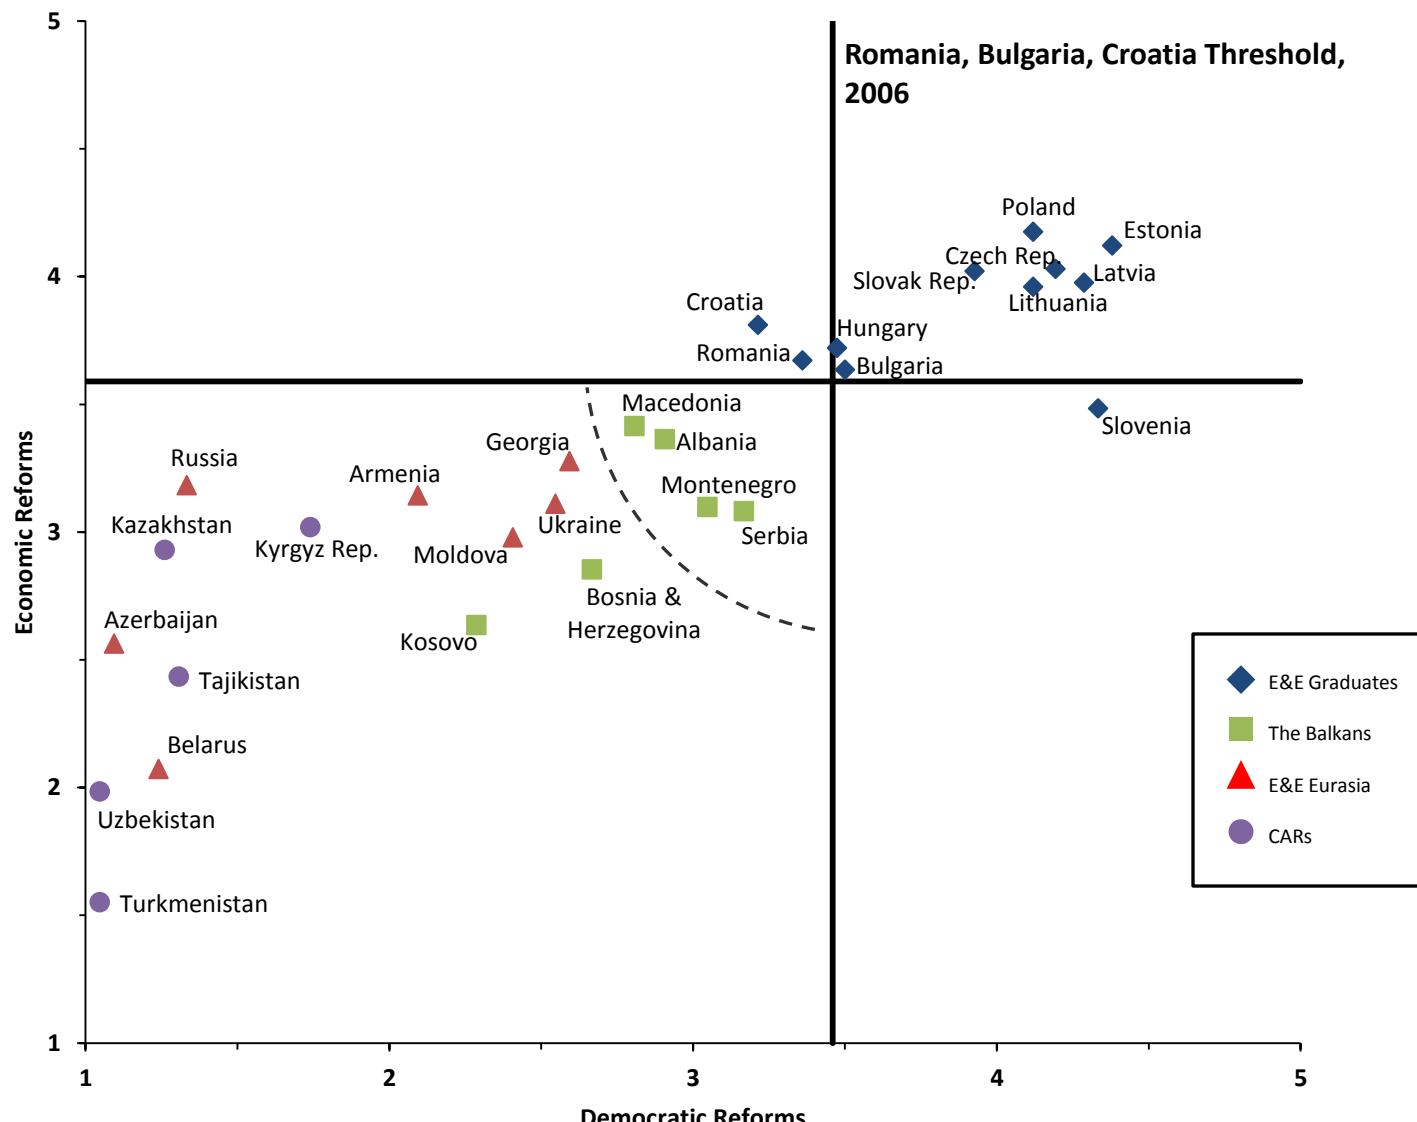

Table of Contents:

- (1) Reform Overview (*Figures 1-5*)
- (2) Democracy and Governance (*Figures 6-15*)
- (3) Economic Reforms (*Figures 16-21*)
- (4) Economic Performance (*Figures 22-51*), including
 - integration with Russia (*Figures 27-38*)
 - energy security (*Figures 37-43*)
 - agriculture and SMEs (*Figures 44-51*)

* See methodology annex for elaboration on the primary indices used in the MCP empirical system.

Figure 1

Economic and Democratic Reforms in Eastern Europe and Eurasia in 2015

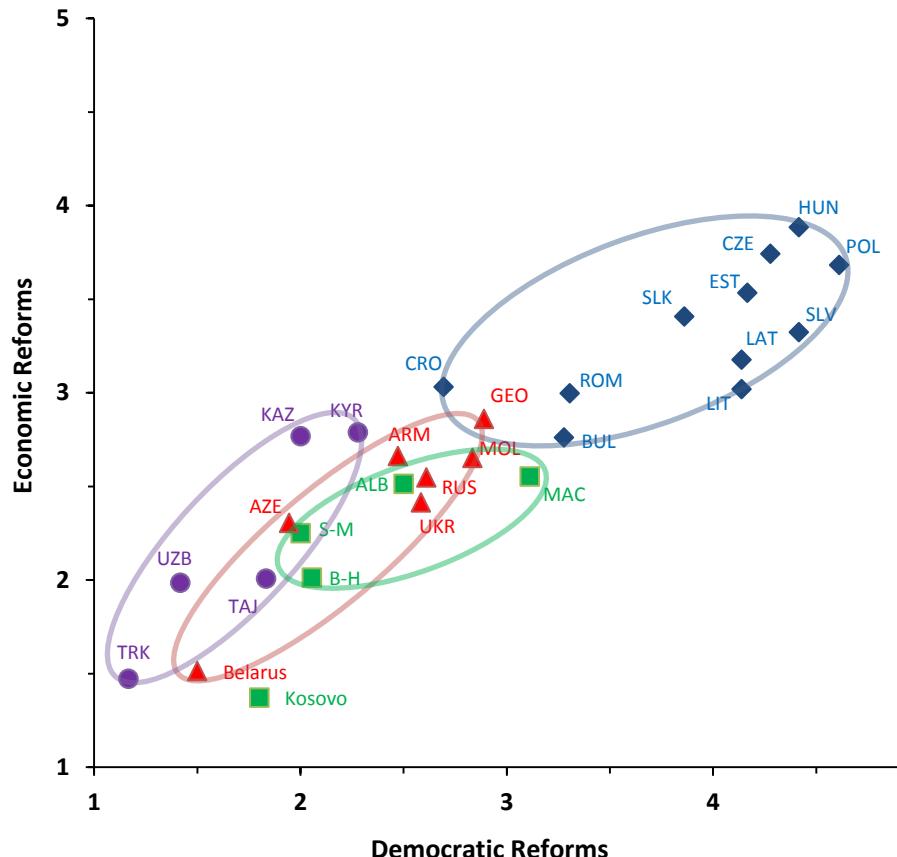

Ratings are based on a 1 to 5 scale, with 5 representing most advanced. Freedom House, *Nations in Transit* (June 2016); and the European Bank for Reconstruction and Development (EBRD), *Transition Report* (November 2015).

Confidence in Armenian Public Institutions

- █ None at all
- █ Not very much
- █ Quite a lot
- █ Great deal
- █ N/A / No Response

Figure 16

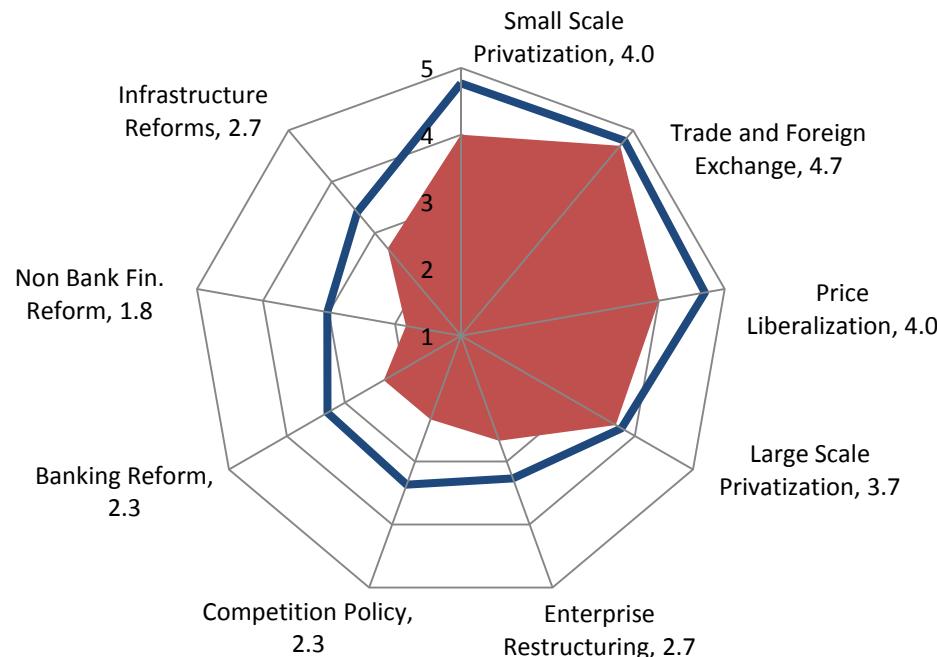

Economic Reforms in Eastern Europe and Eurasia

USAID MCP system. Drawn from the EBRD *Transition Report* series. The E&E Graduates (n=11) consist of Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia, Slovenia, Czech Republic, Romania, Bulgaria, and Croatia. The Balkans (n=6): Albania, Bosnia & Herzegovina, Macedonia, Kosovo, Serbia, and Montenegro. E&E Eurasia (n=7): Armenia, Azerbaijan, Belarus, Georgia, Moldova, Russia, and Ukraine. The Central Asian Republics or the CARs (n=5): Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan.

Figure 17

Armenia's Macroeconomic Reform Profile, 2014-2015

USAID/E&E Country Graduates

Figure 18

Macroeconomic Reforms in Armenia, 2000-2015

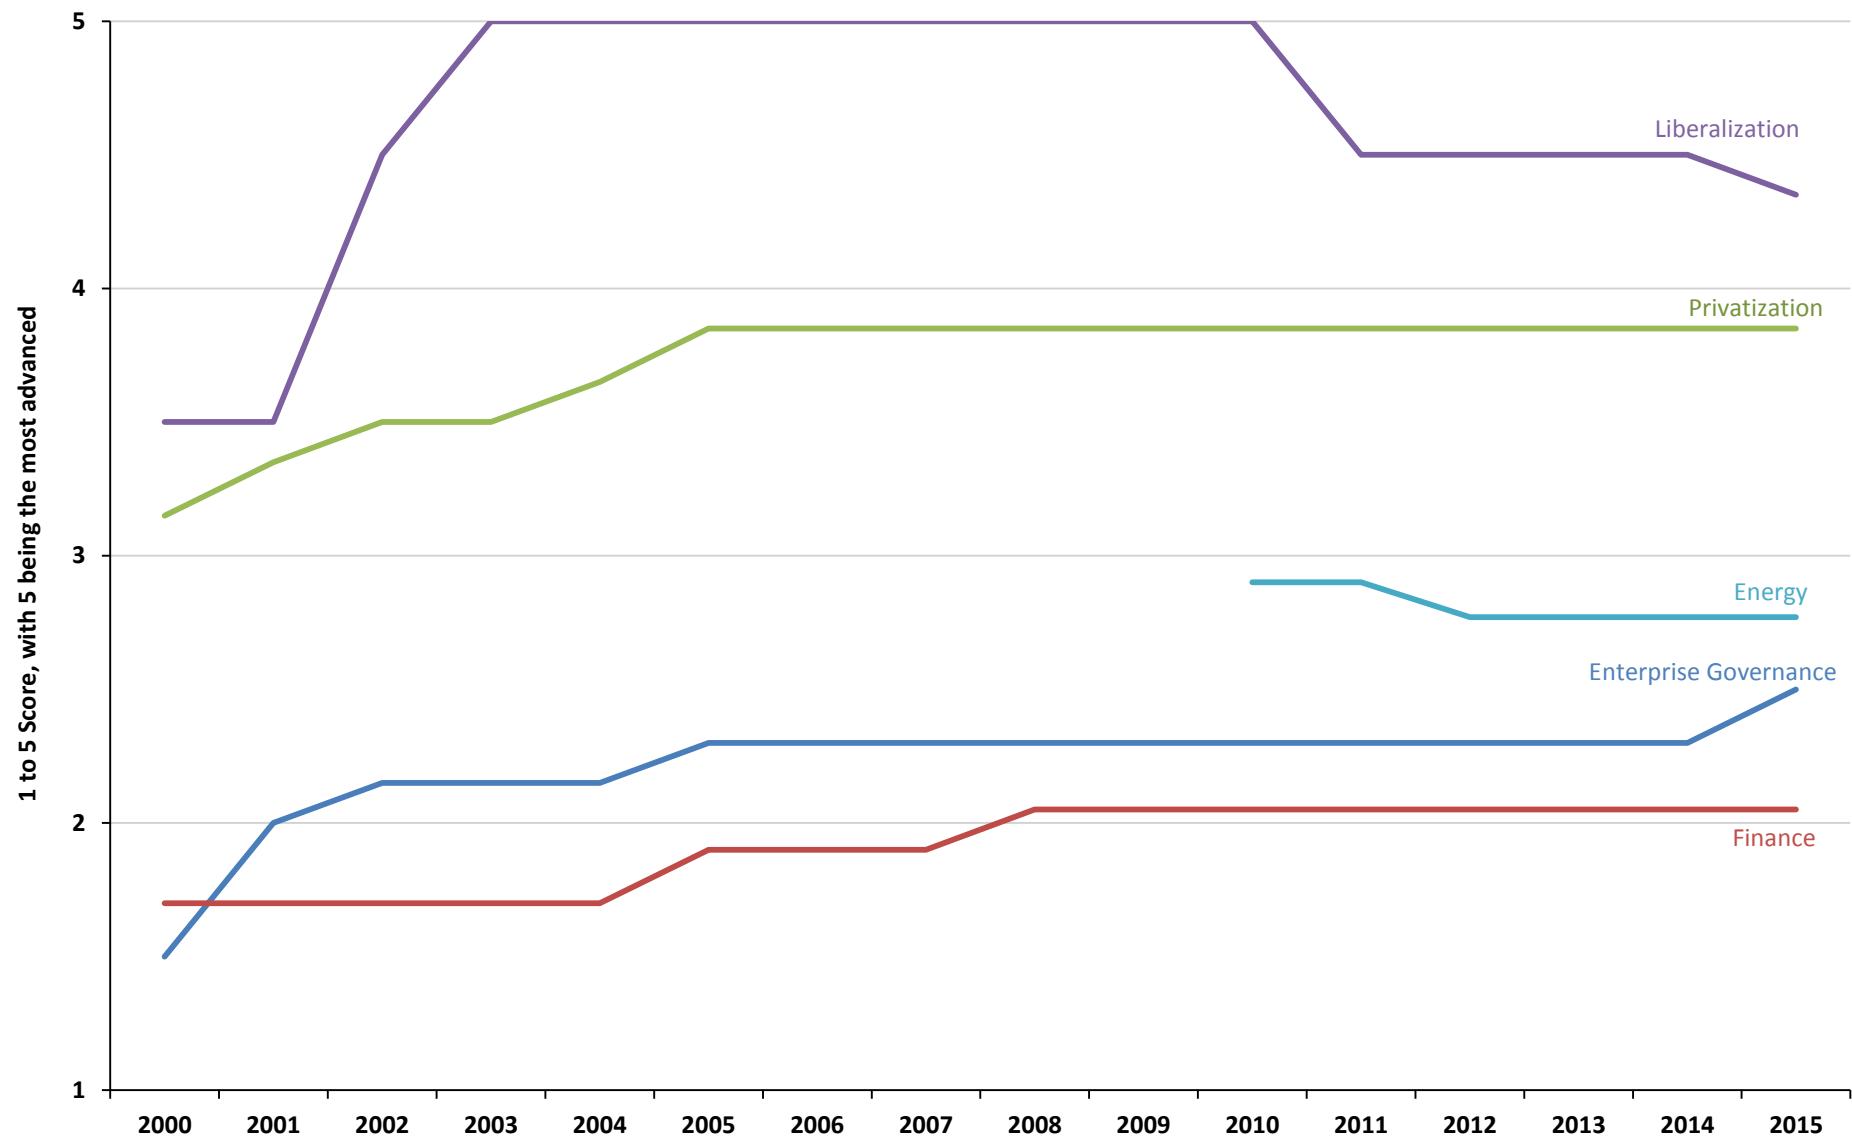

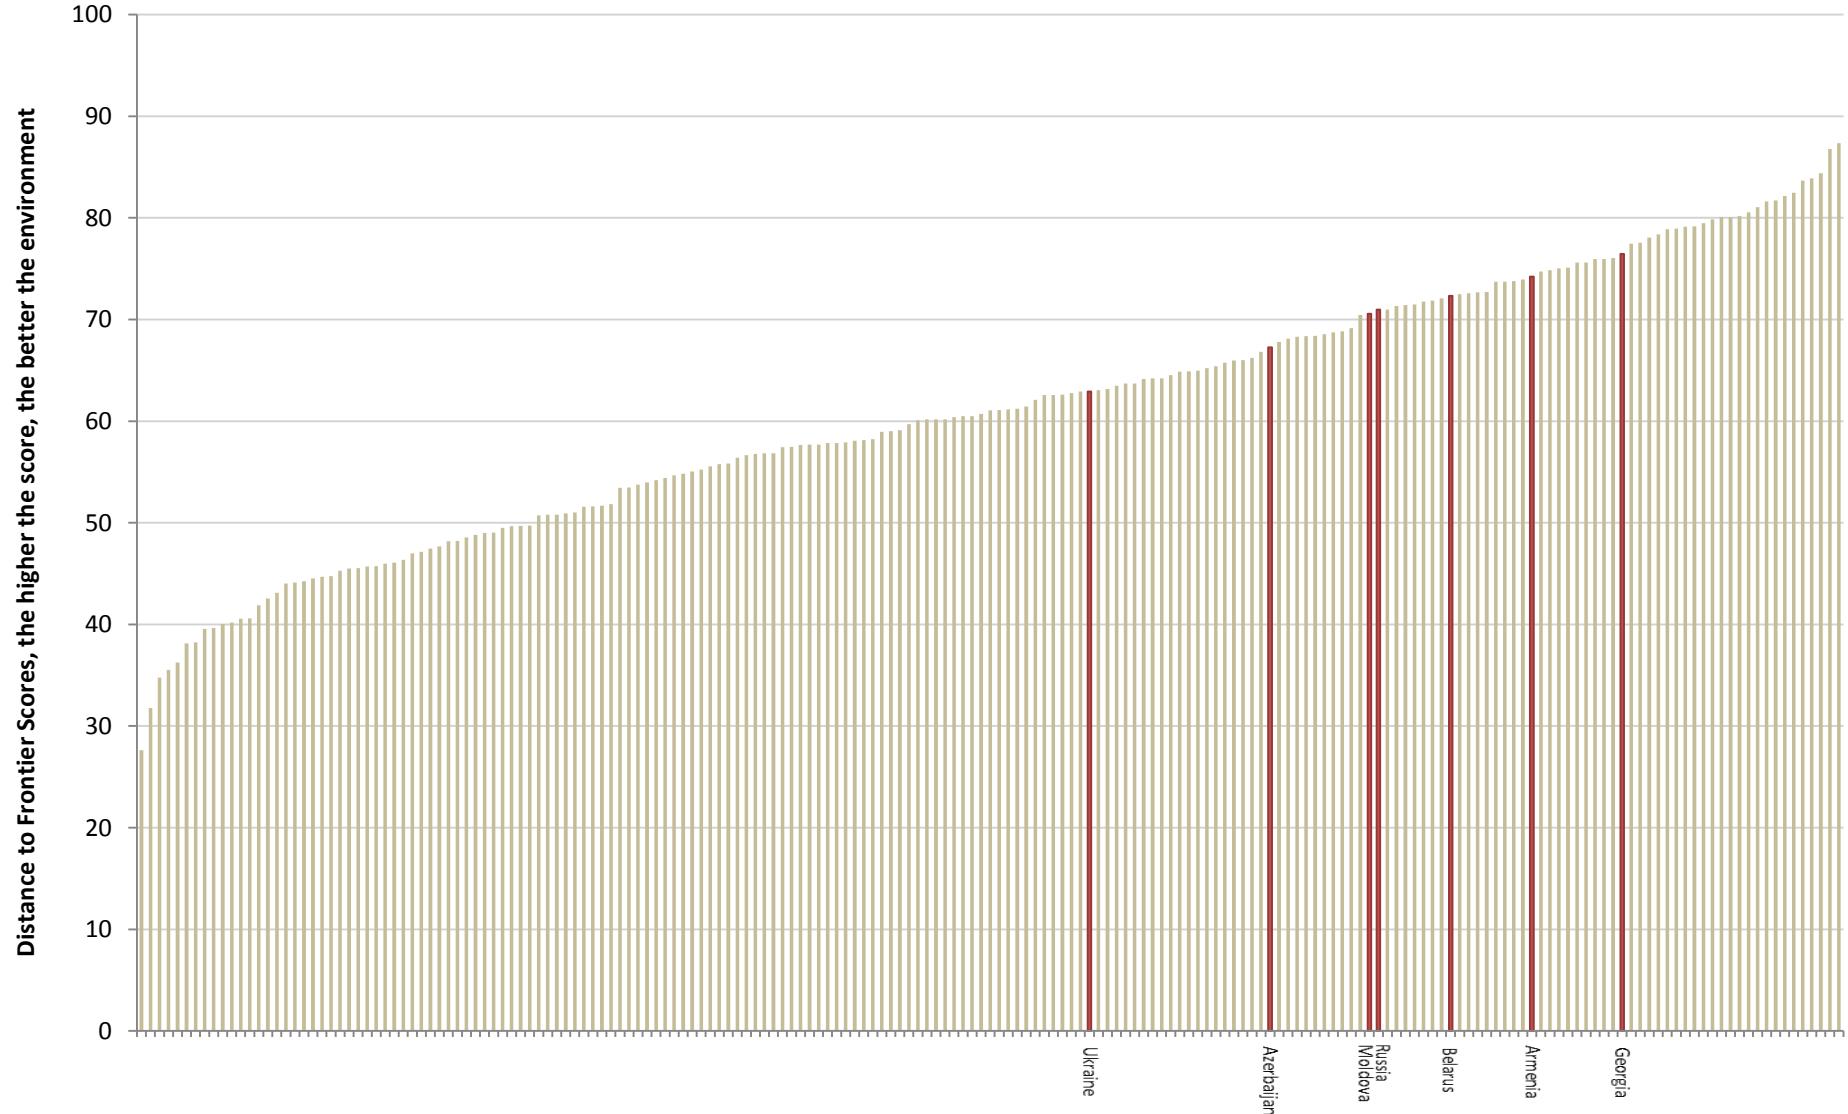

Figure 19

2015 Business Environment in the World

World Bank, *Doing Business 2016* (October 2015). The Distance-to-Frontier score represents the gap between the economy's performance and measures of best practices across the World Bank's 10 components of doing business. On the Distance-to-Frontier 0-100 score, 100 represents the frontier, the optimal outcome.

Figure 20

Business Constraints in Armenia

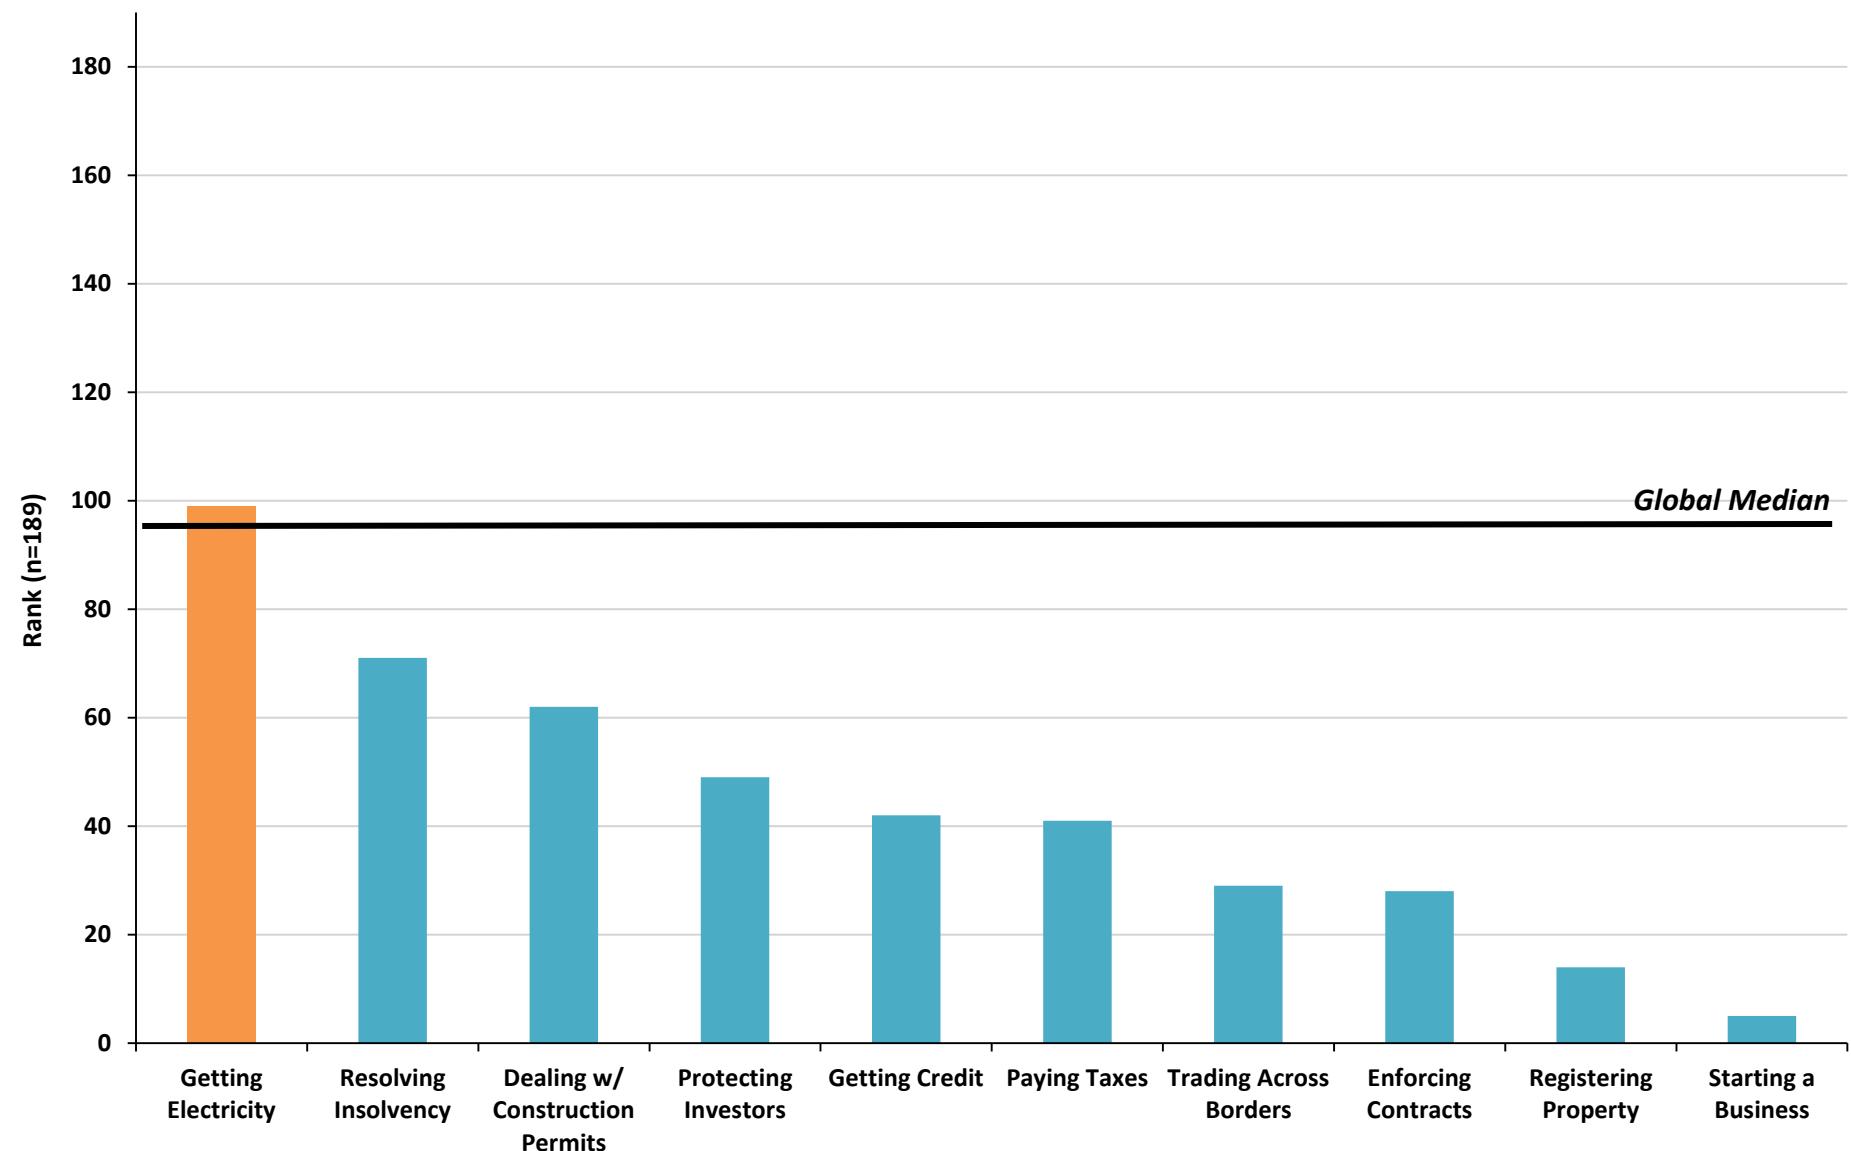

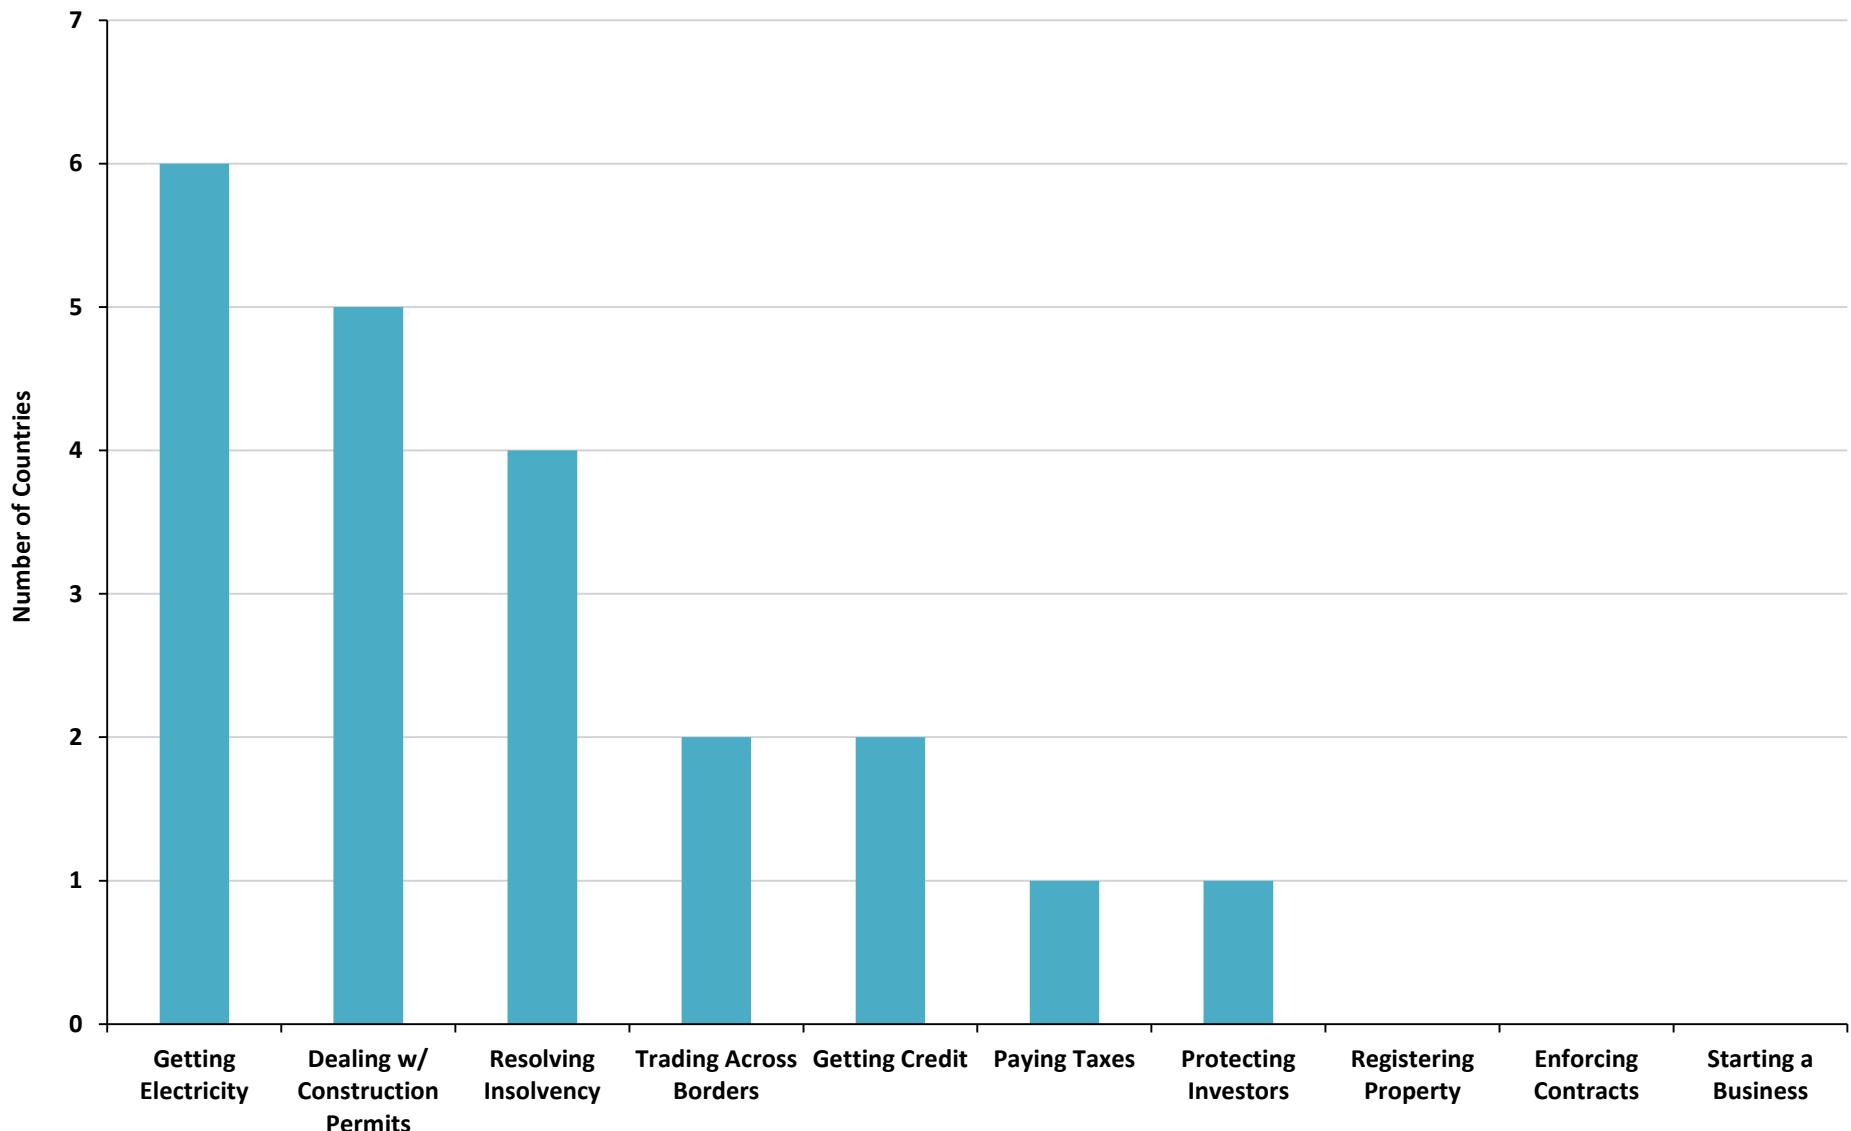

Figure 21

Most Problematic Business Constraints in E&E Eurasia

World Bank, *Doing Business 2016*. The three most significant constraints (out of 10) for each country were tallied. For example, "getting electricity" is a top-three constraint in 6 of the 7 E&E Eurasian countries.

Figure 22

Real GDP in Eurasia (1999 = 100)

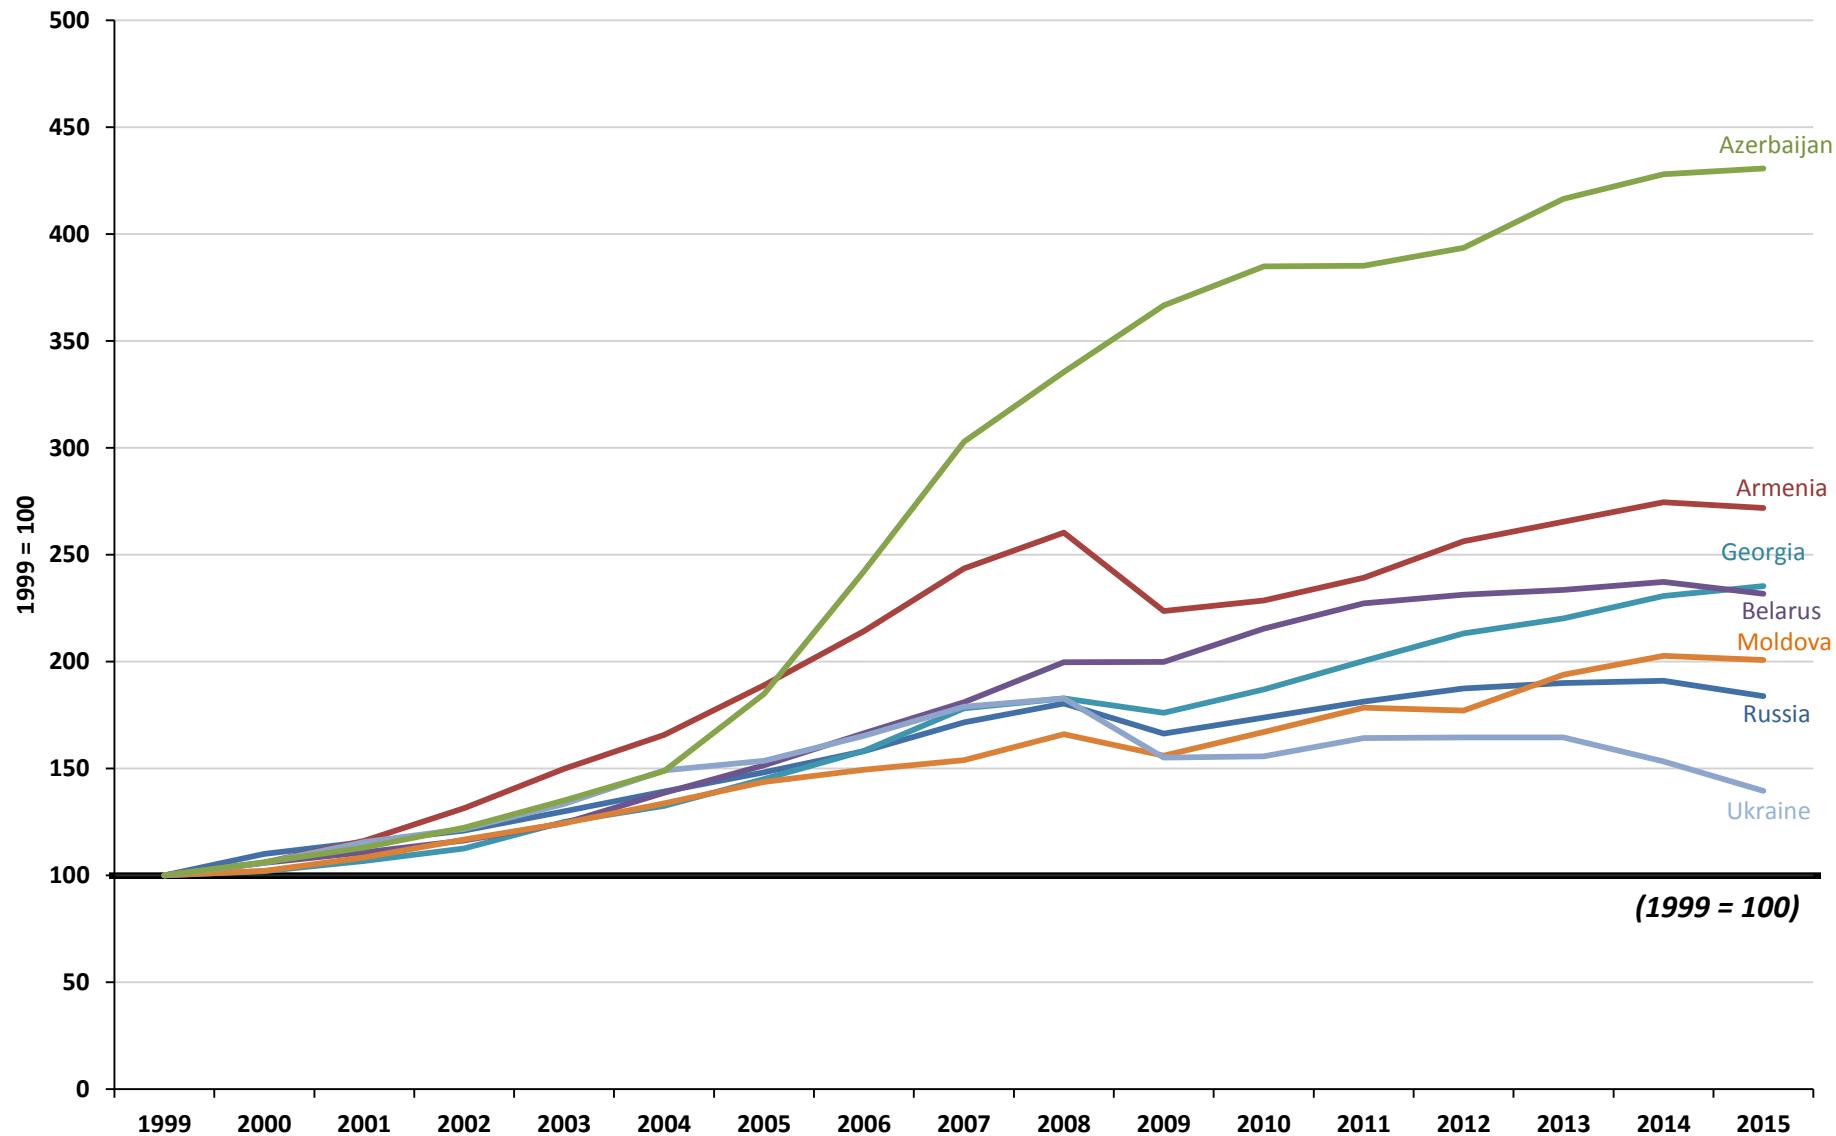

Figure 23

Real GDP in E&E Eurasia (1989 = 100)

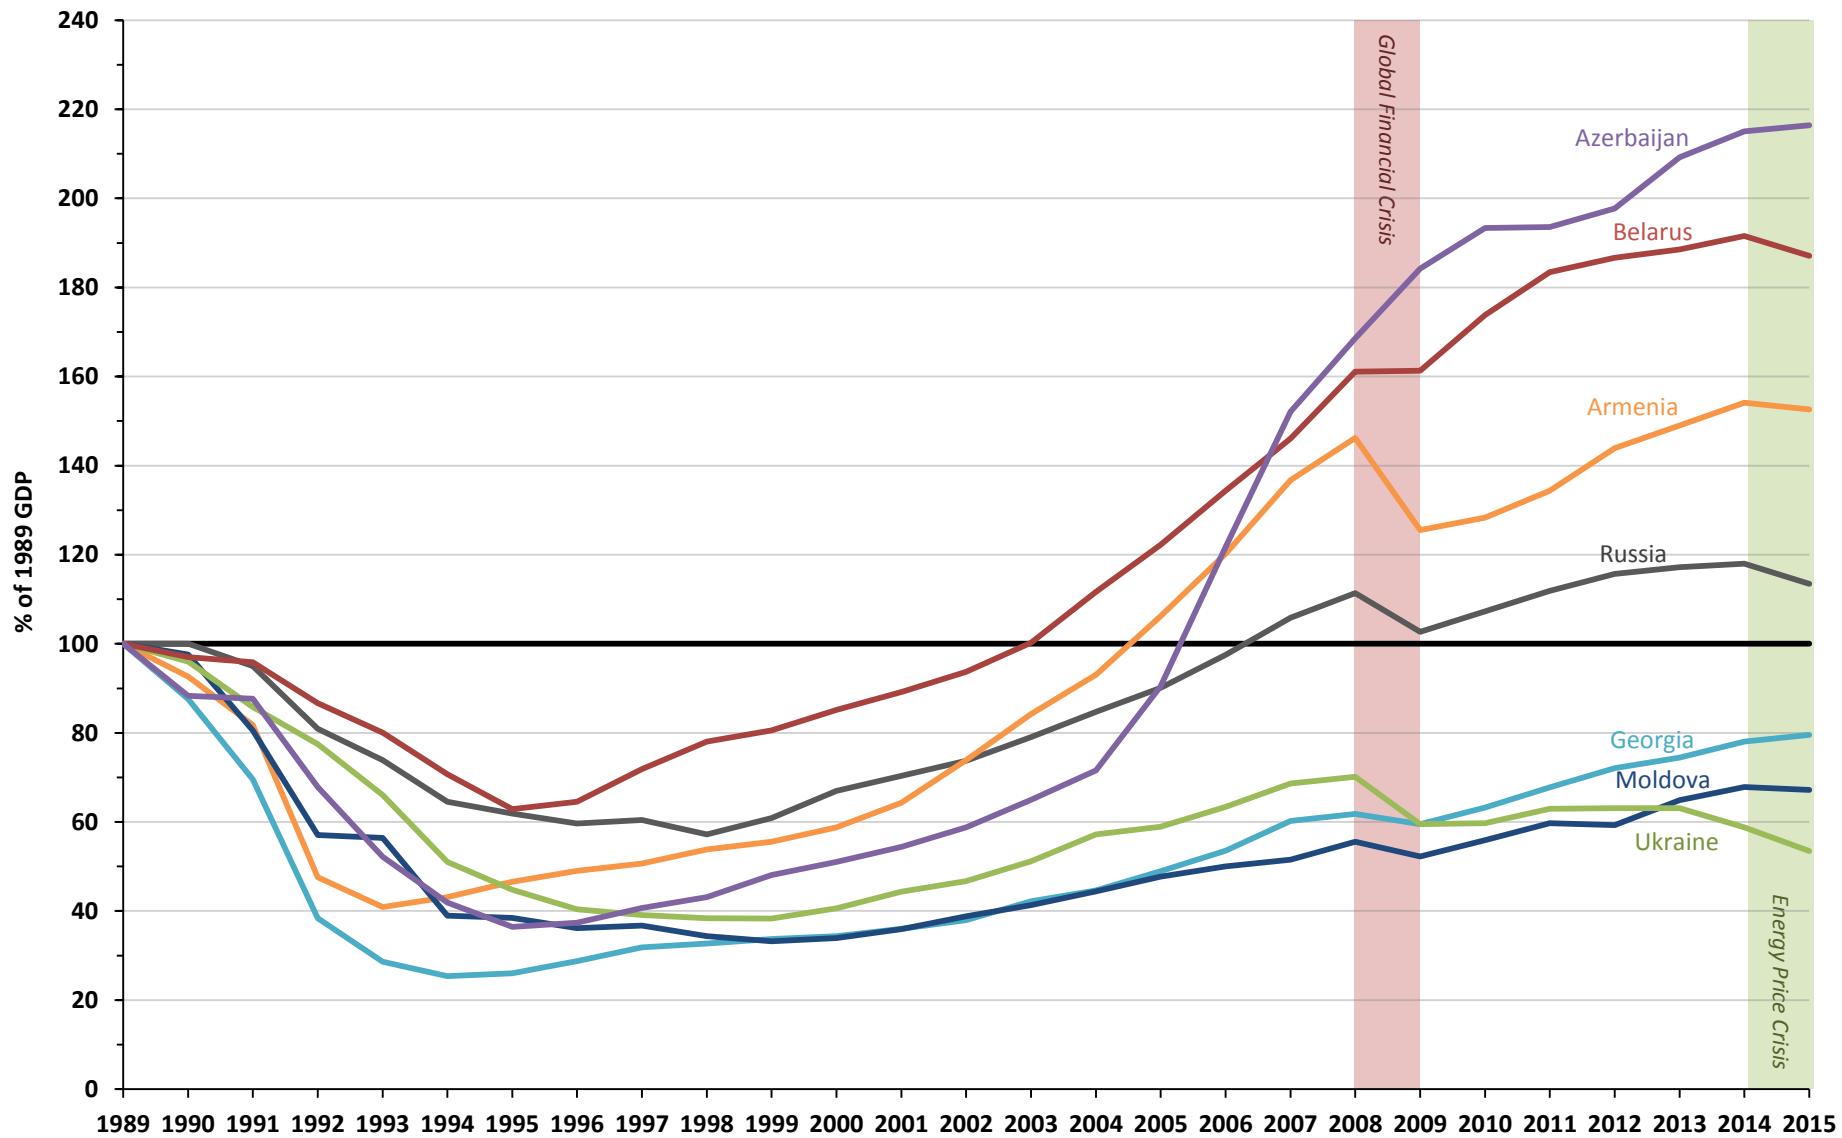

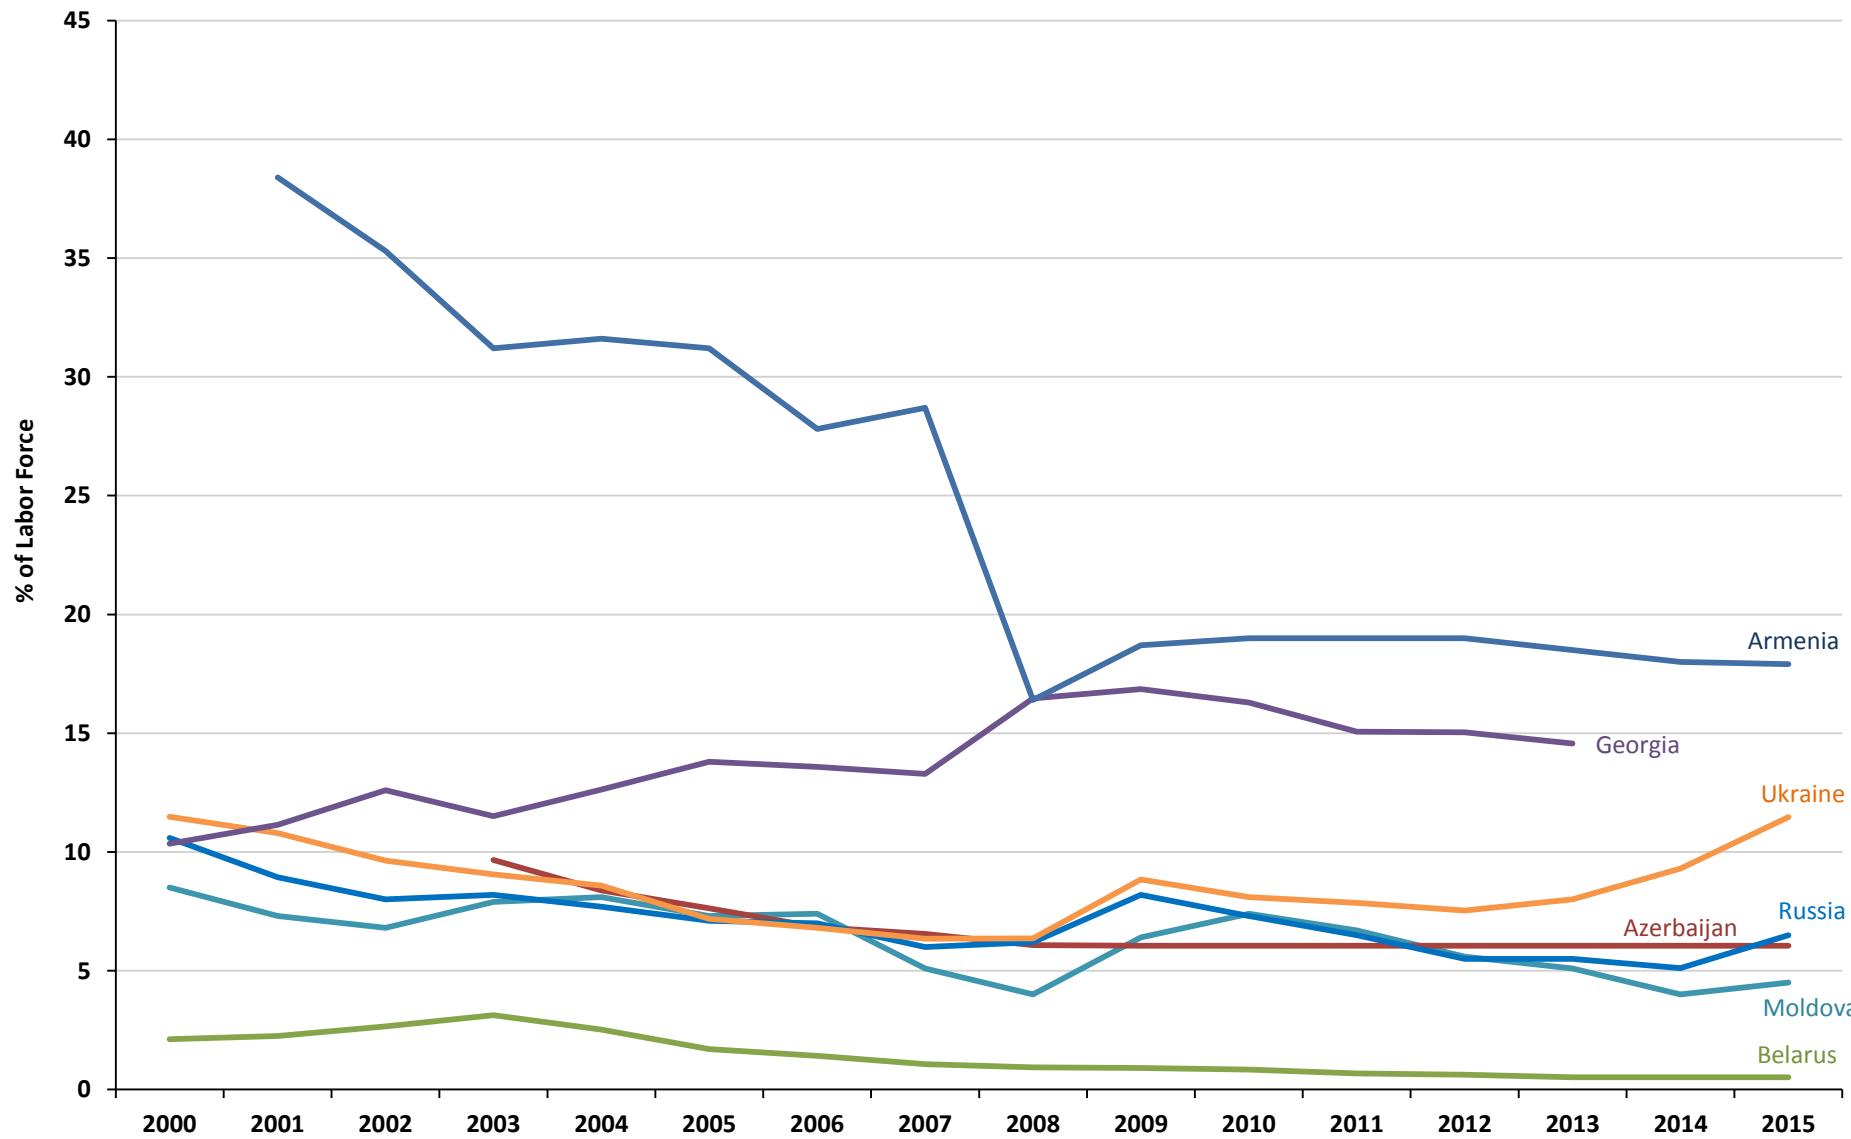

Figure 24

Unemployment Rates in E&E Eurasia

IMF, *World Economic Outlook* (April 2015). Data for 2014 and 2015 represent initial IMF estimates. 2012-2013 data for Armenia and 2010-2013 data for Azerbaijan represent IMF estimates.

Figure 25

Youth Unemployment in E&E Eurasia

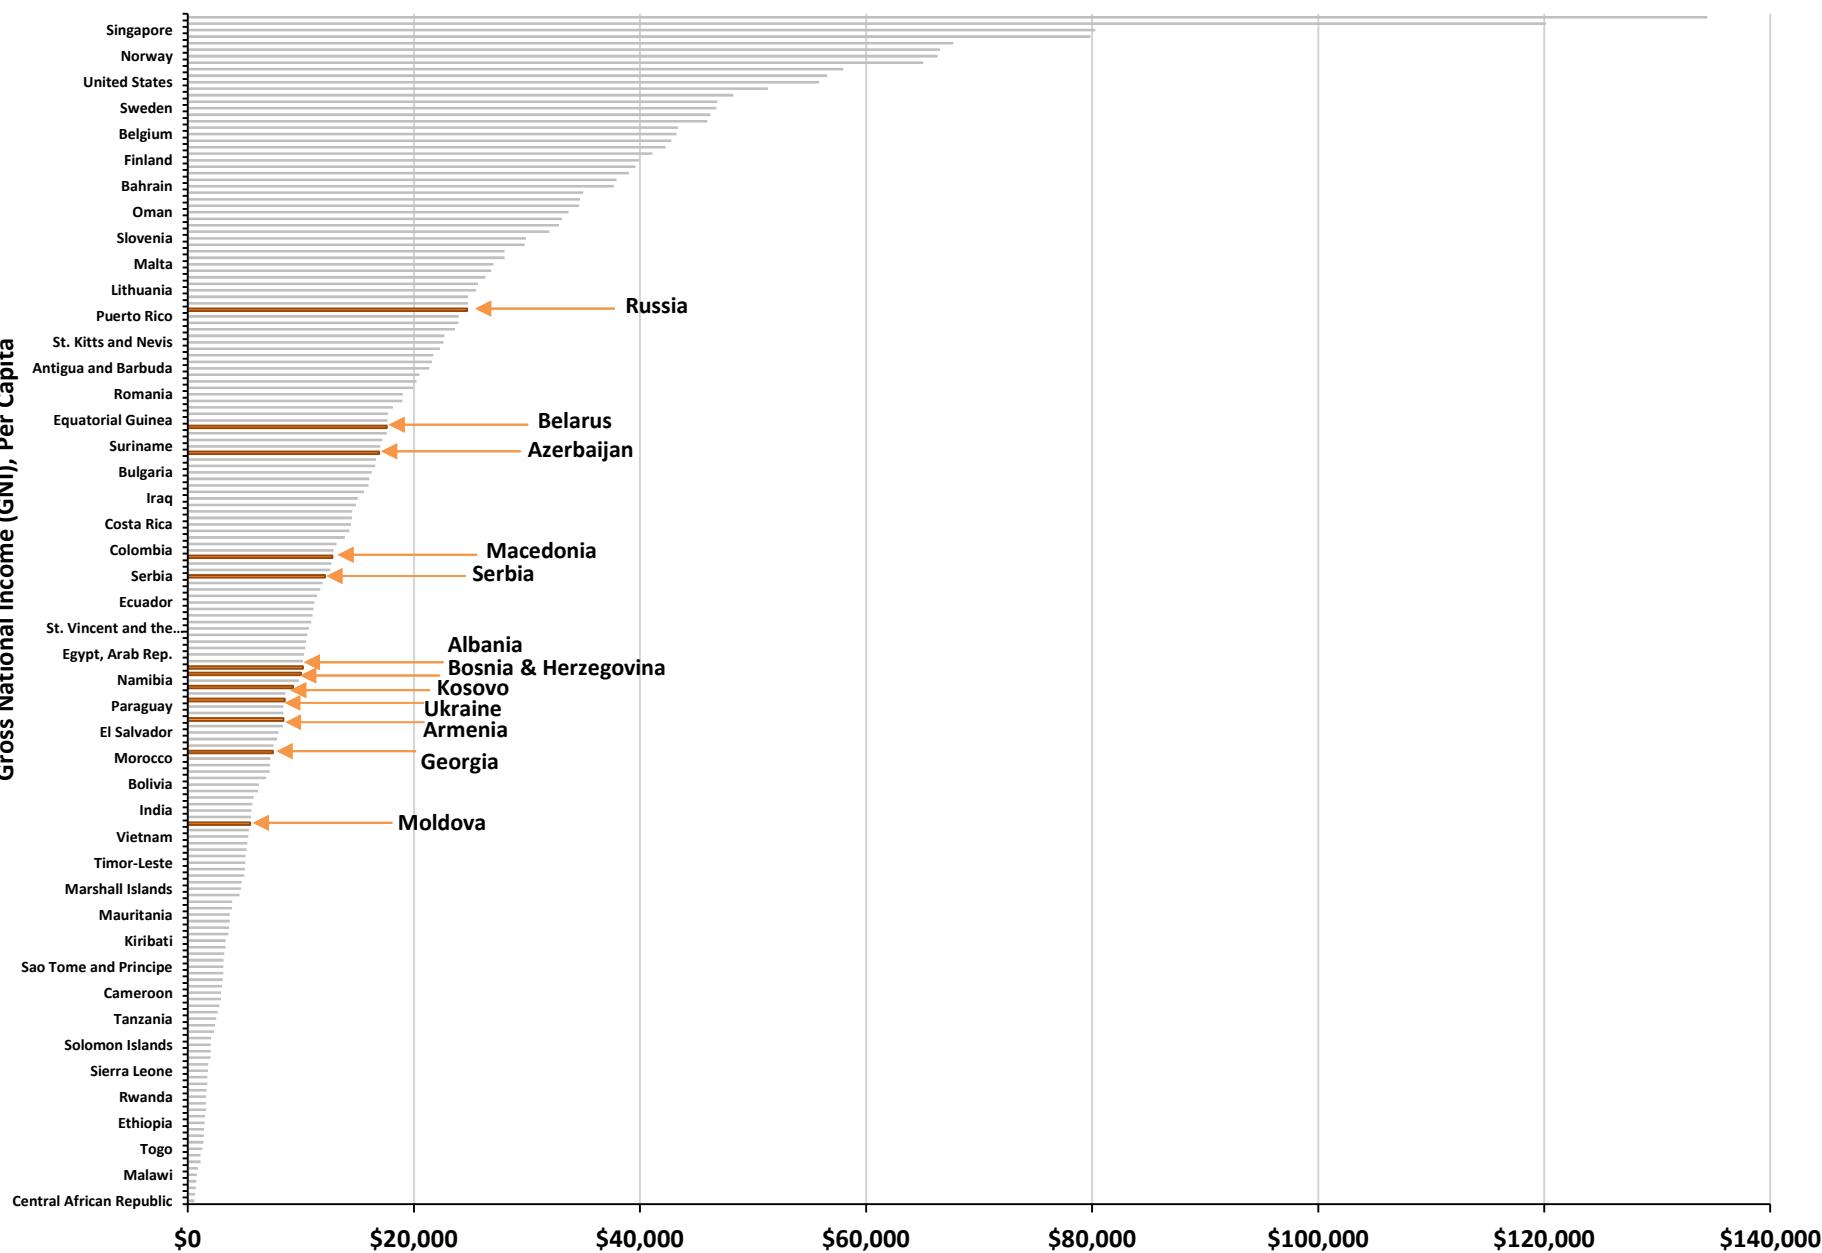

Figure 29

Poverty in Select E&E Countries and Elsewhere (<\$3.10 Per Day in 2012/2013)

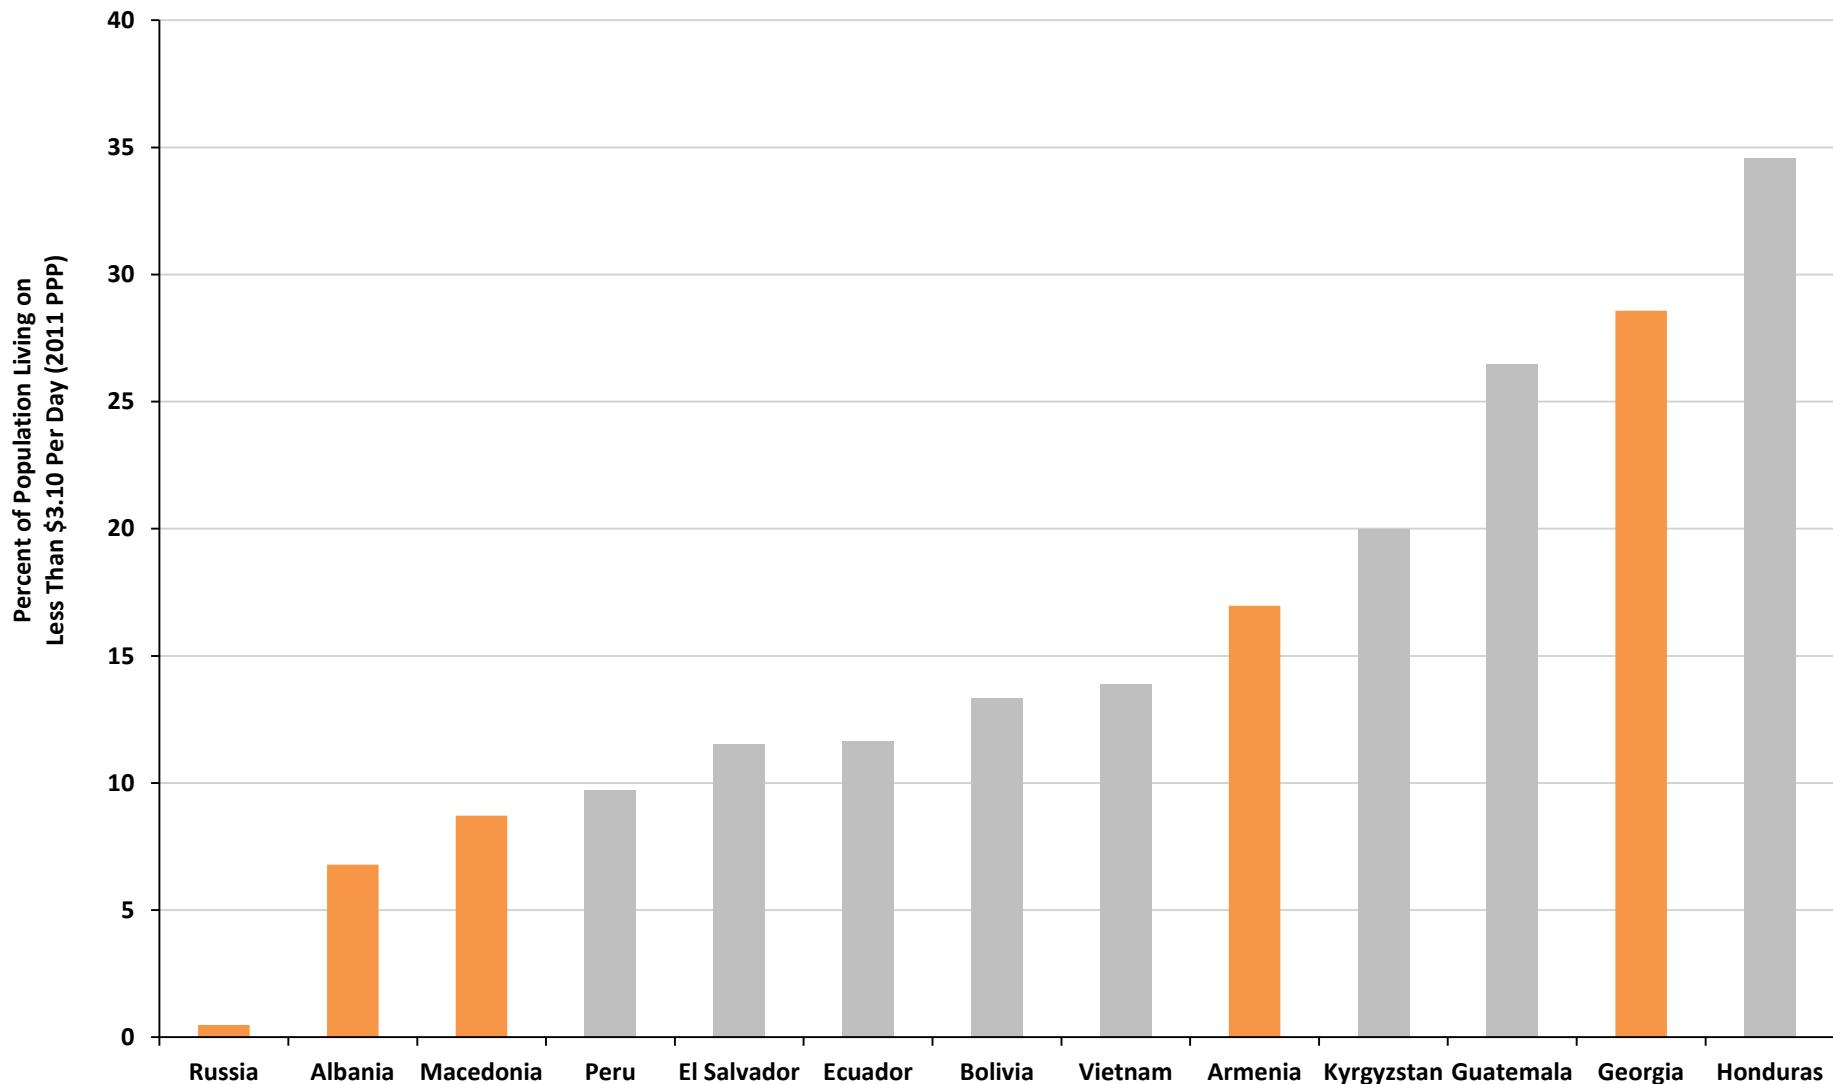

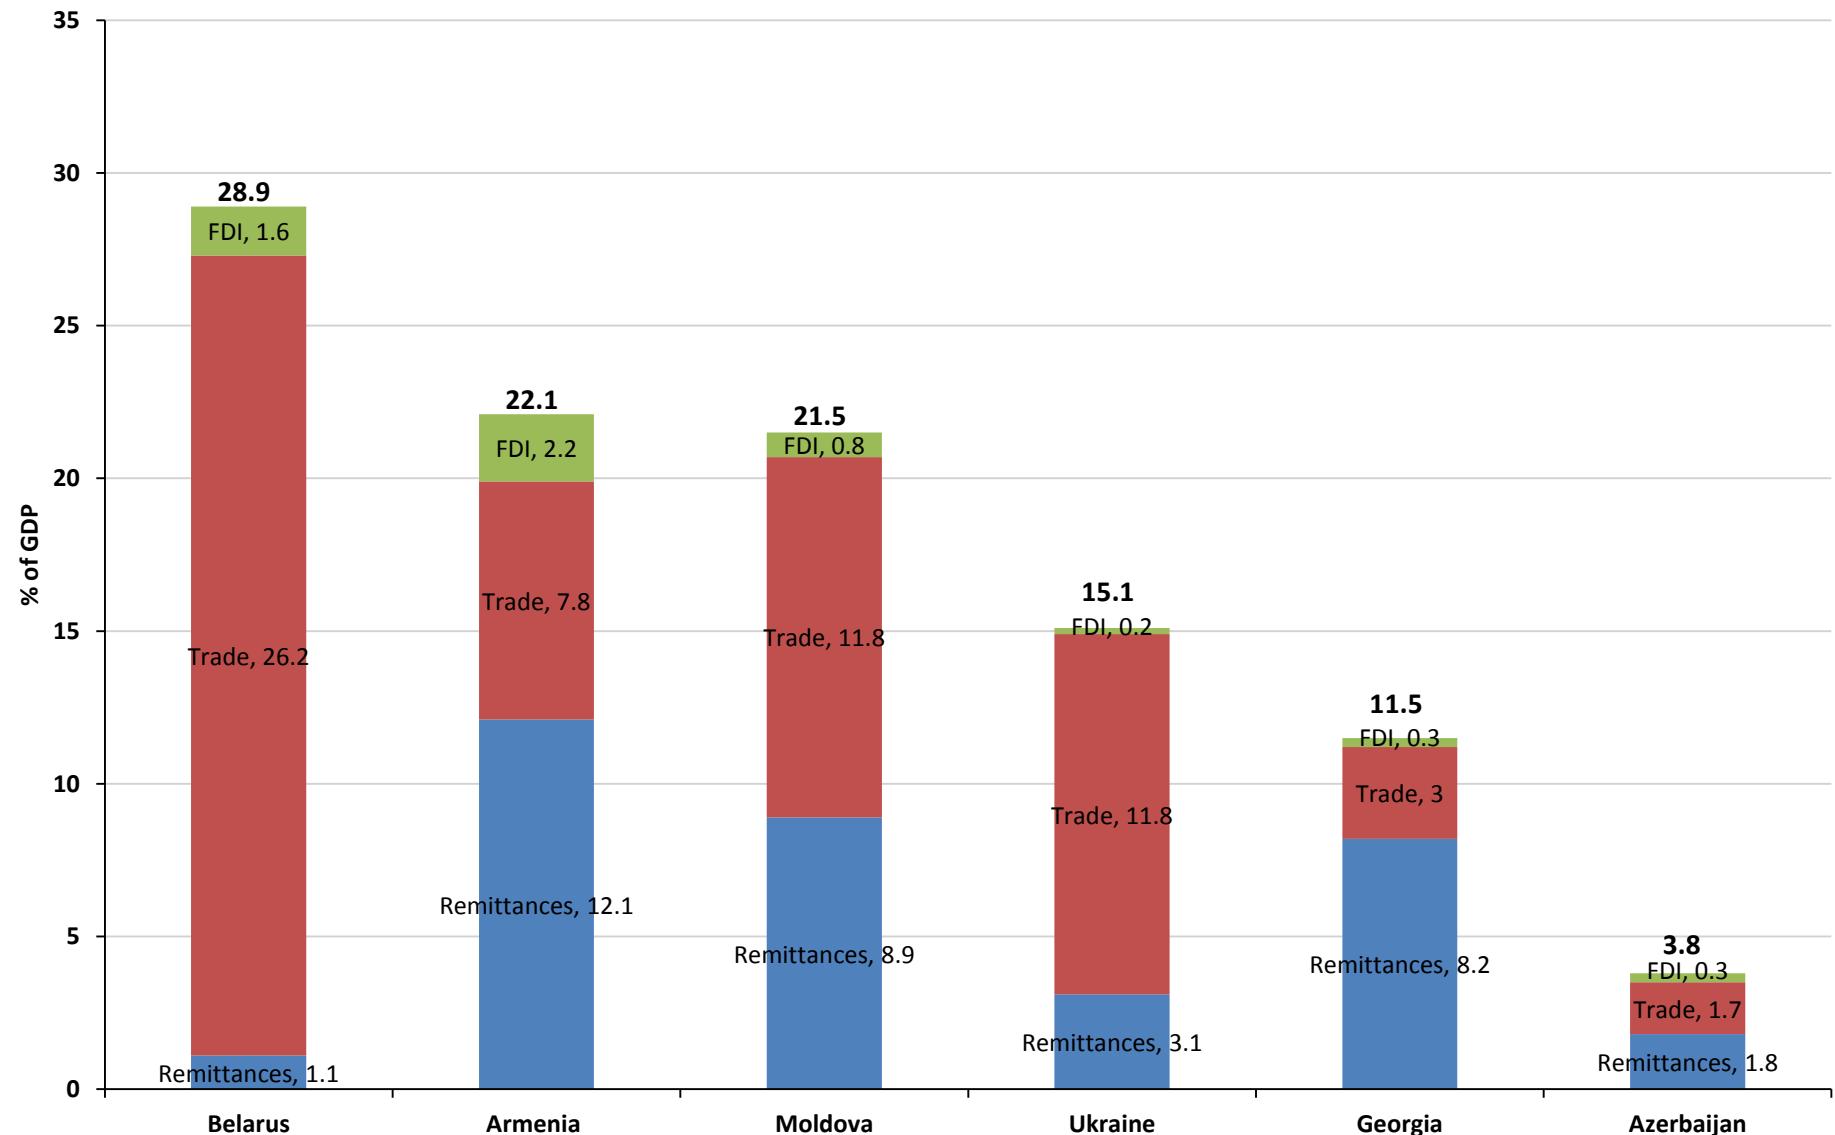

Figure 30

GDP Exposure in Eurasia to Russia's Economy in 2014

World Bank, *World Development Indicators*, UNCTAD FDI/TNC database, and IMF, *Direction of Trade Statistics*. GDP exposure to Russia's economy through remittances, trade, and FDI.

Figure 31

Remittances in E&E Eurasia (% of GDP)

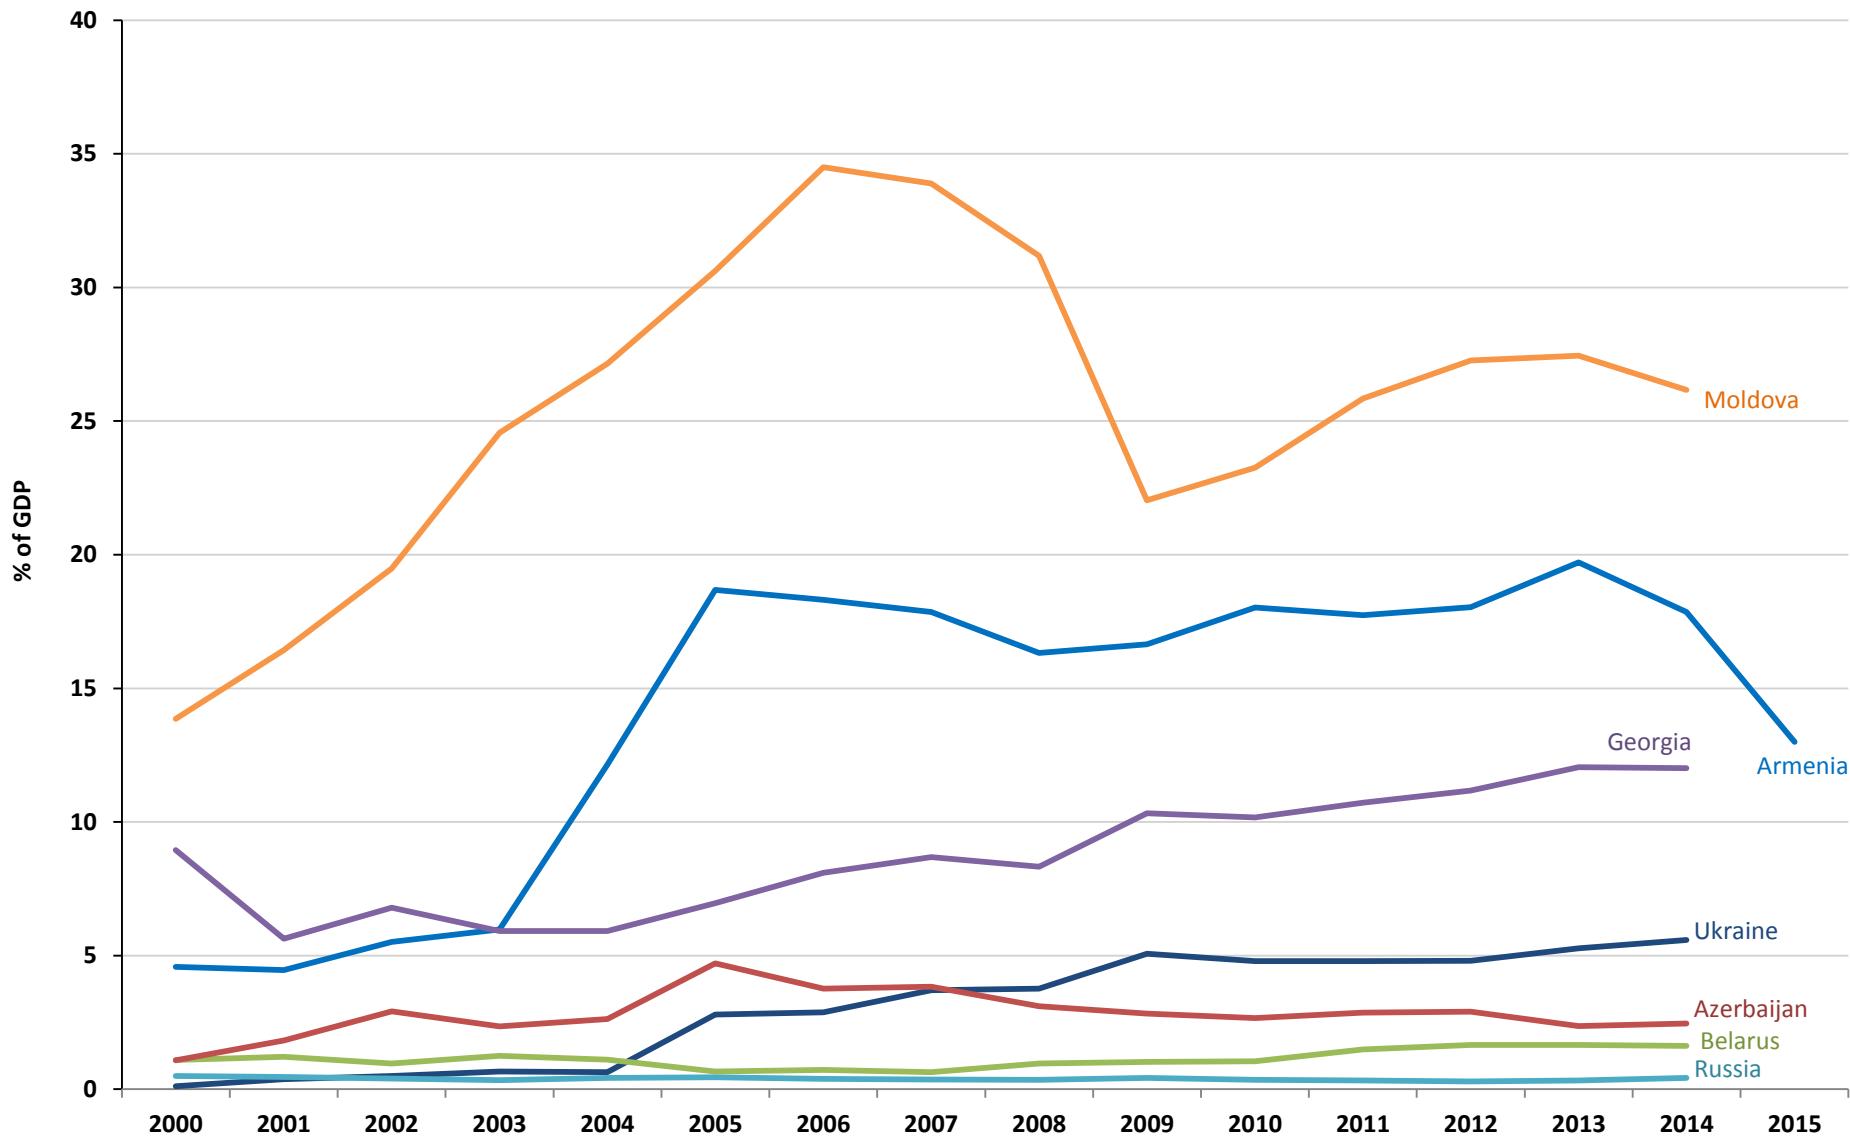

Figure 32

Percentage of Remittances in Eurasia from Russia in 2014

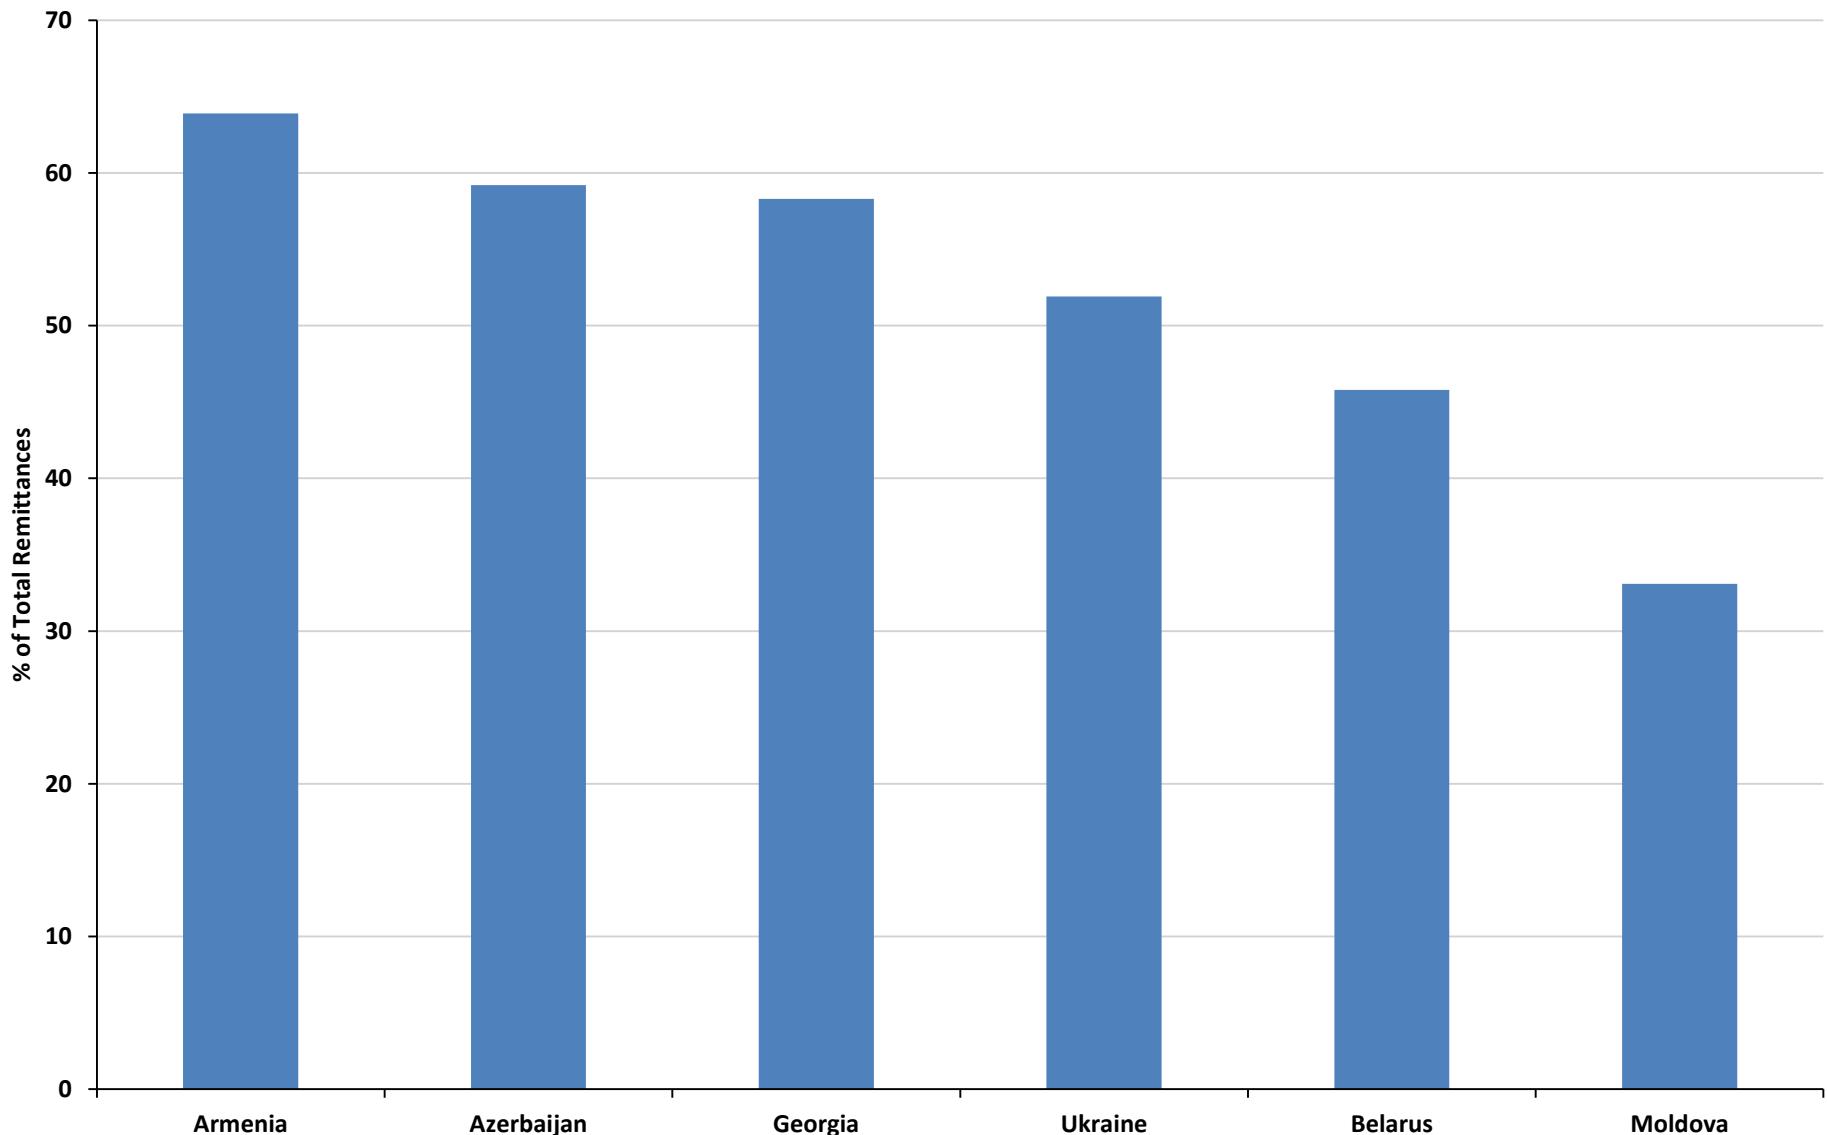

Figure 33

Exports from Eurasia and the CARs to Russia, 1990s vs. 2013

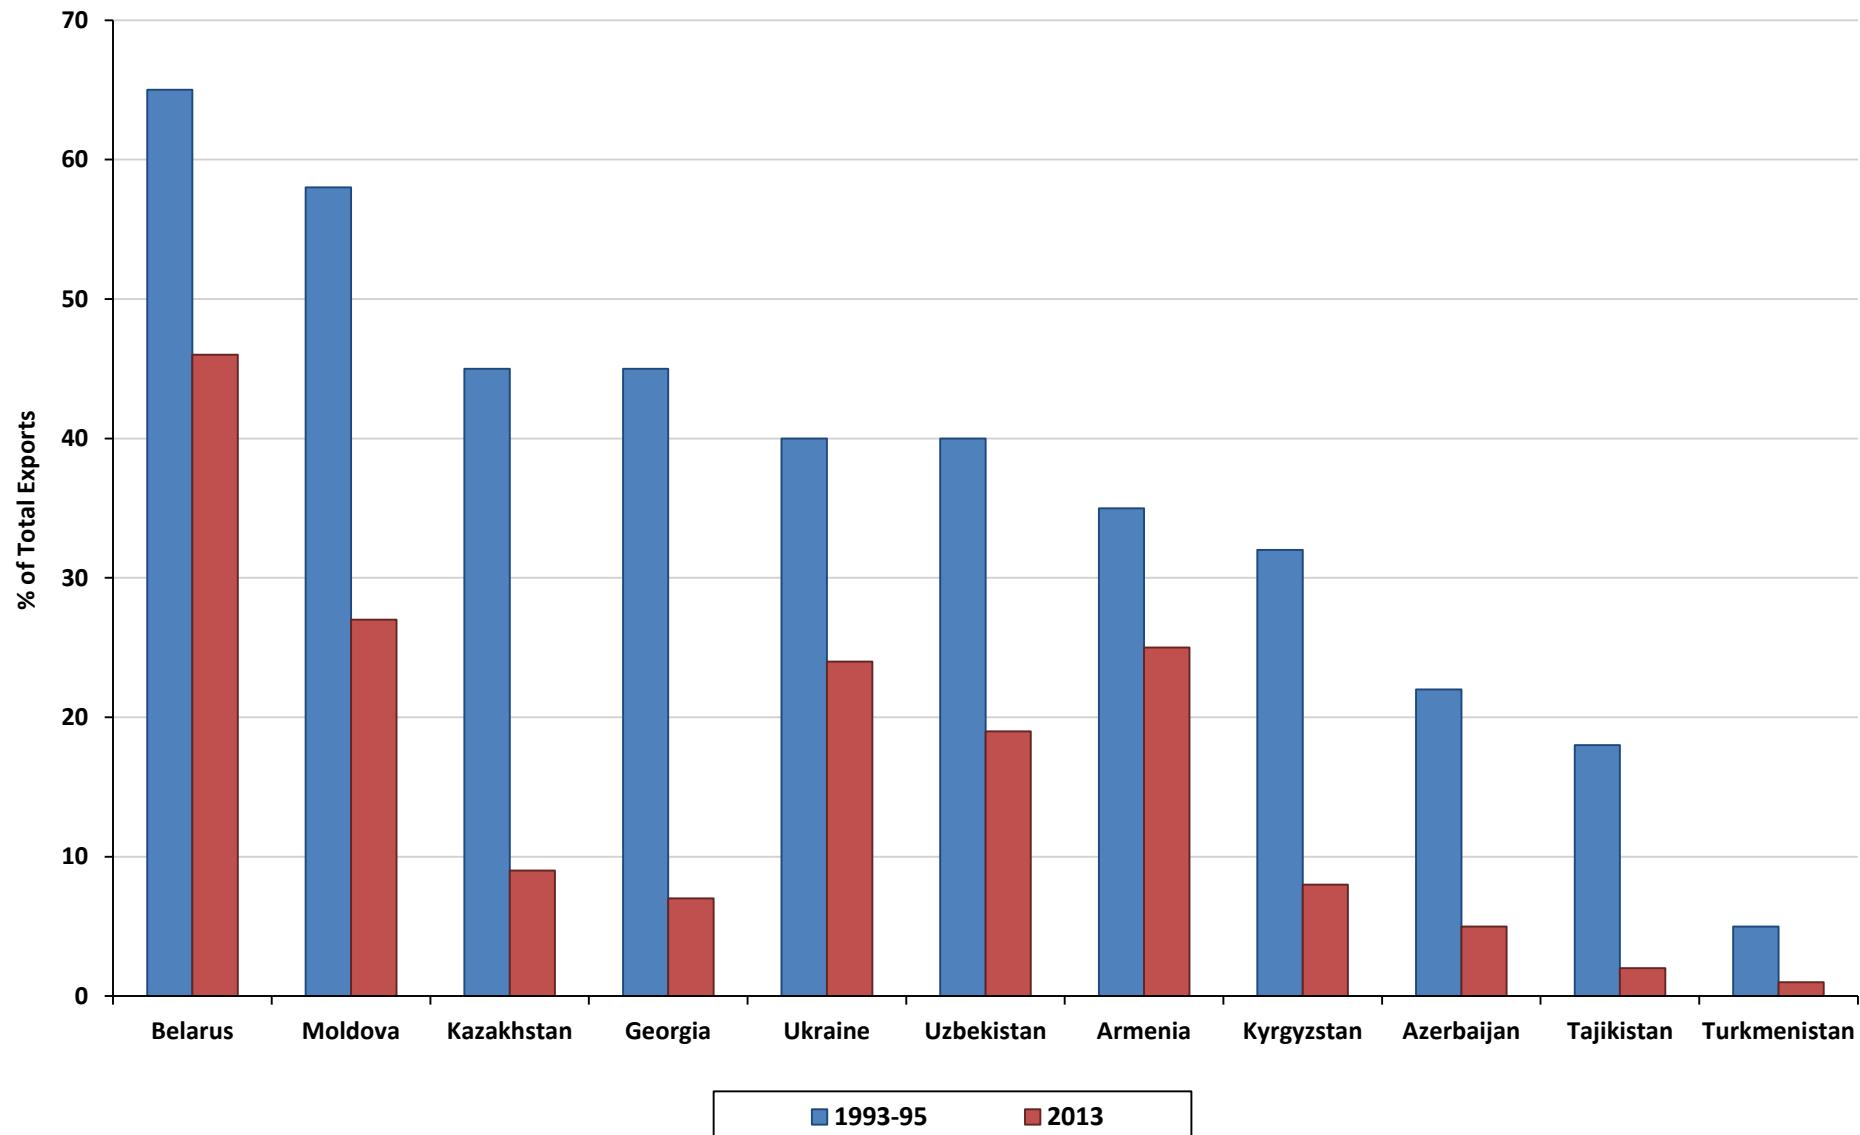

Figure 34

Armenia Exports to Russia and the EU

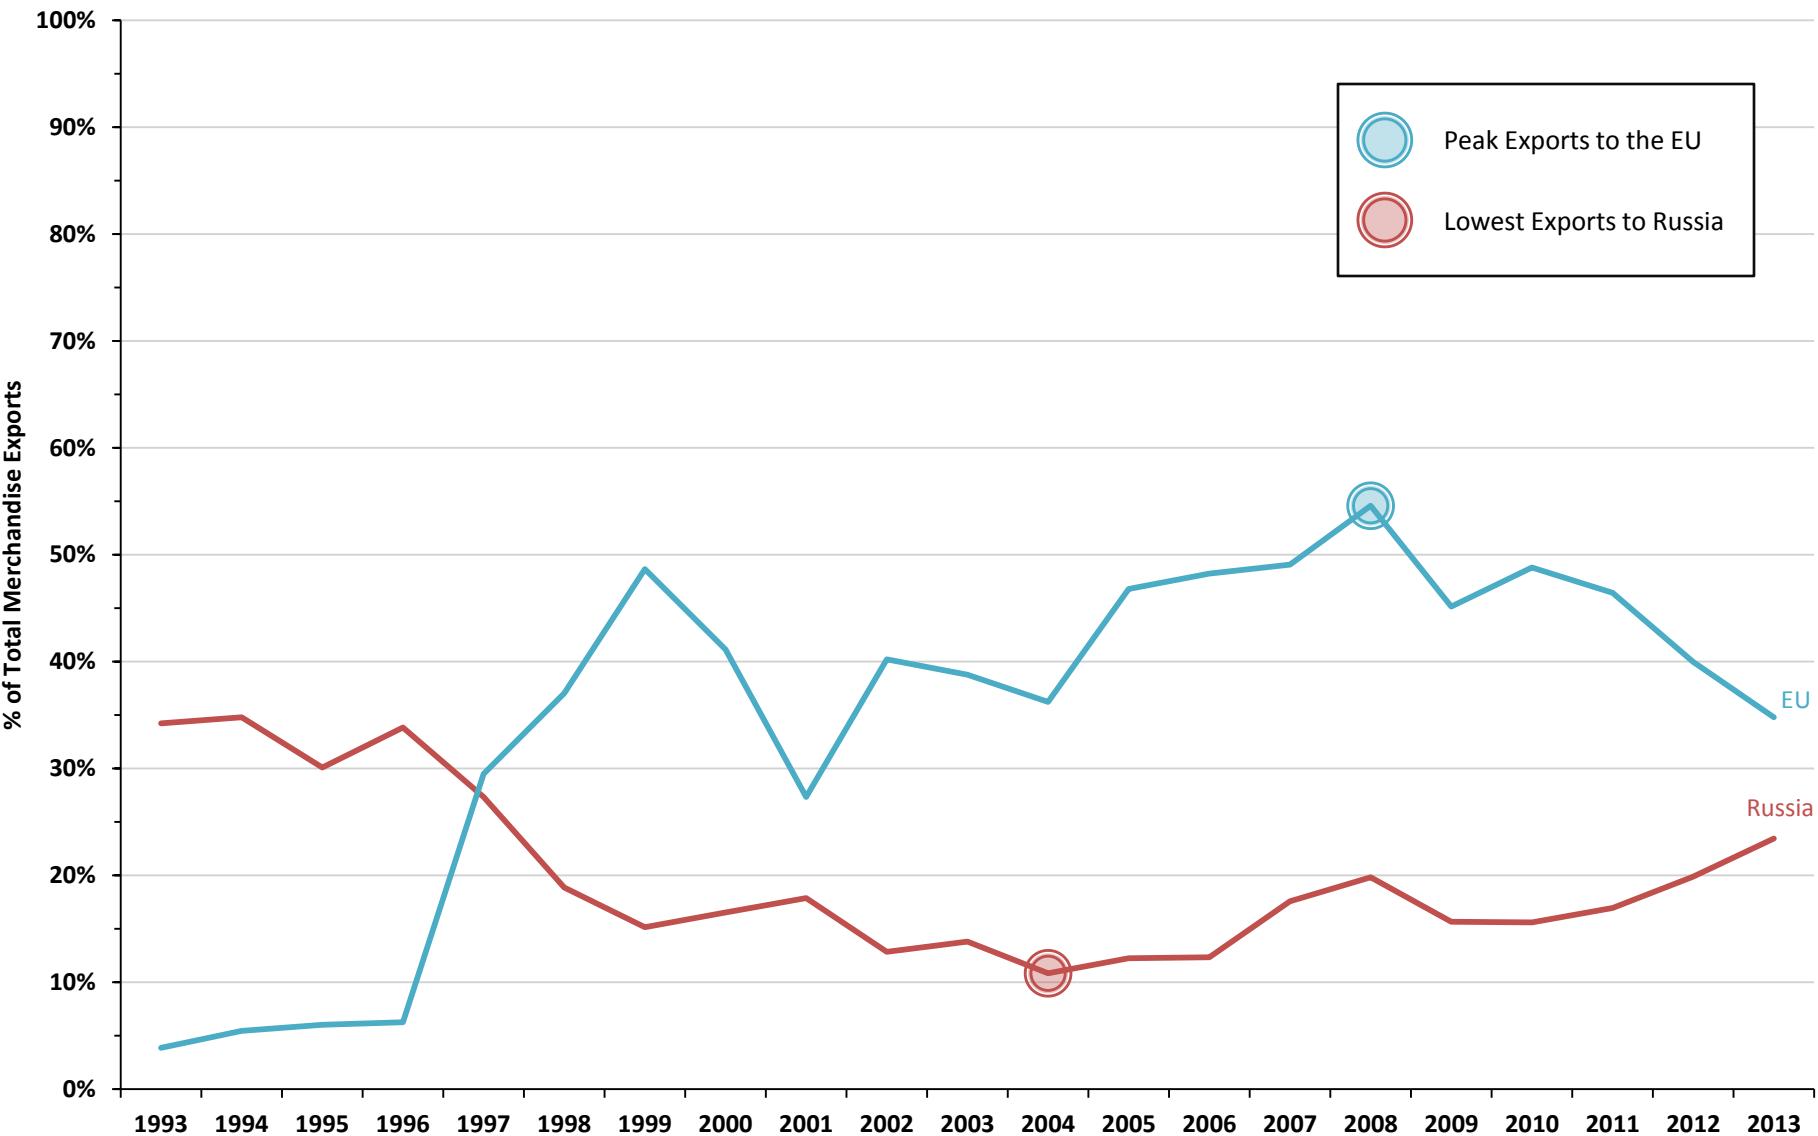

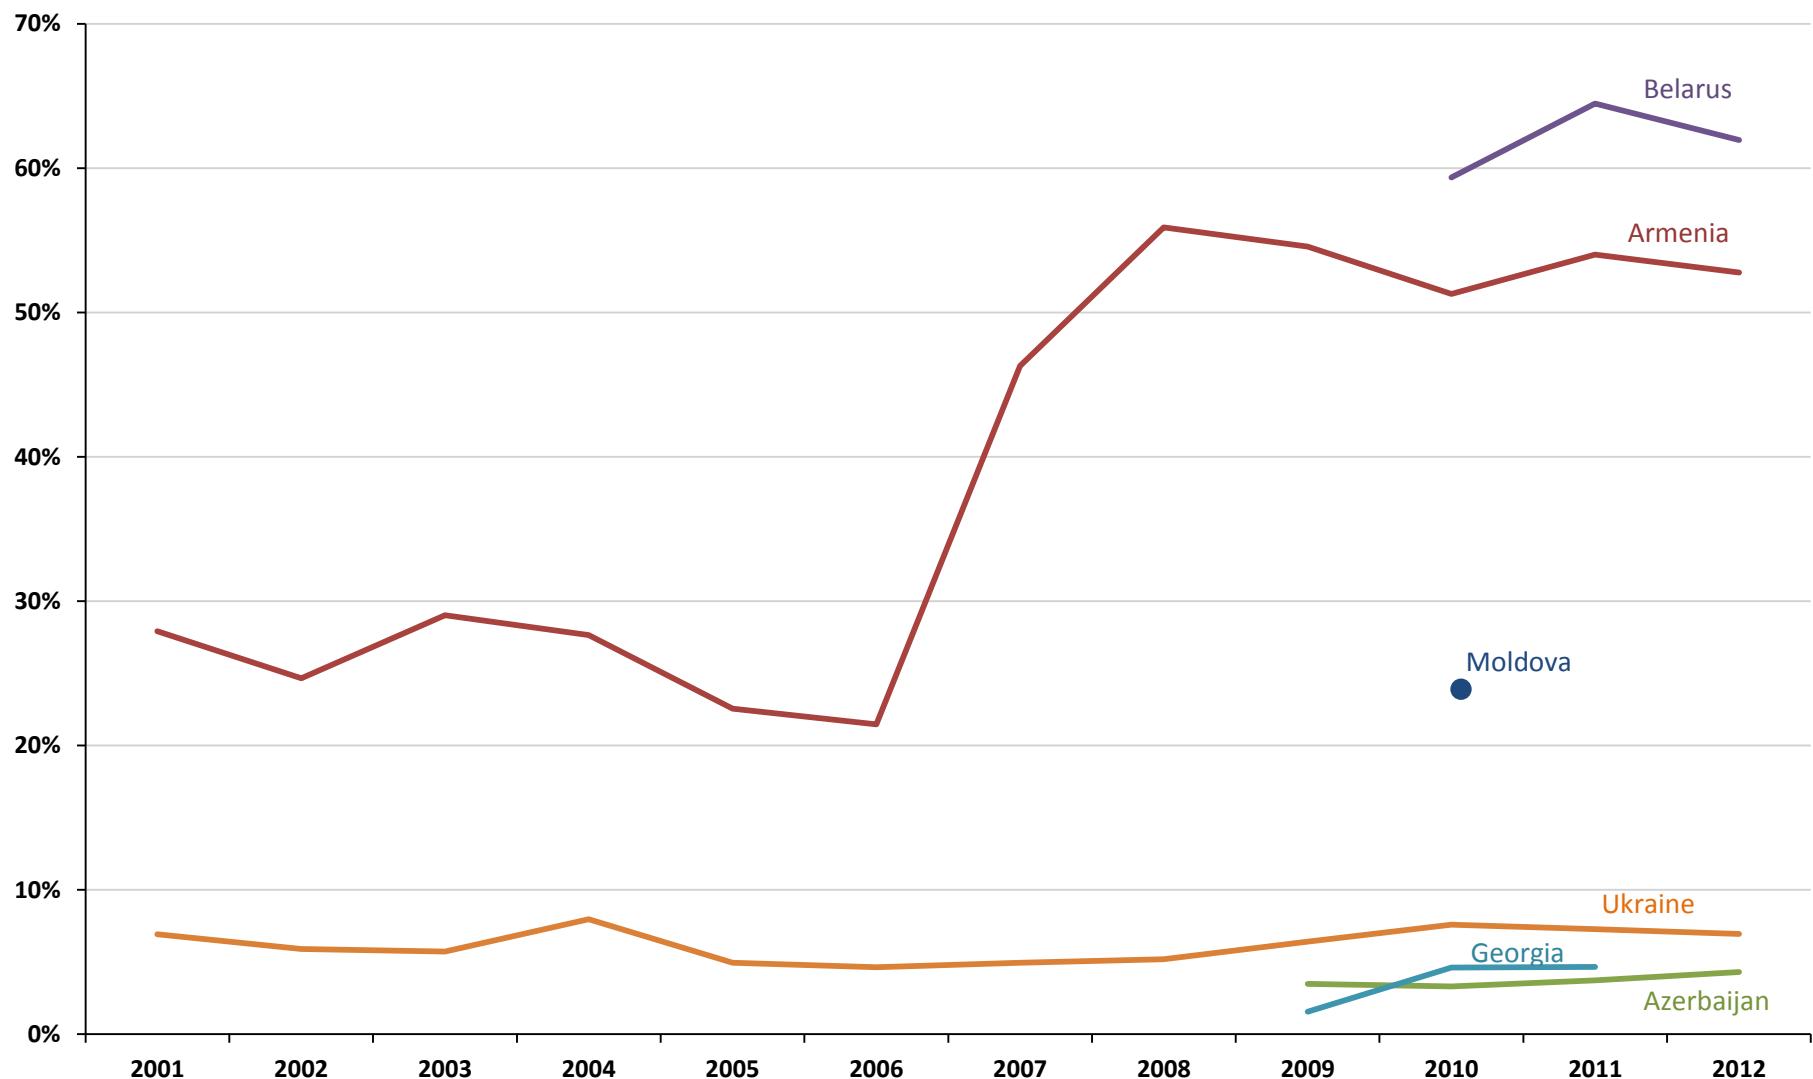

Figure 35

Russian Foreign Direct Investment in Eurasia (% of Total FDI)

UNCTAD FDI/TNC database. Moldova data from R. Giucci and J. Radeke, *FDI Attraction to Moldova*, German Economic Team Moldova (April 2012), citing IMF Data Warehouse.

Figure 36

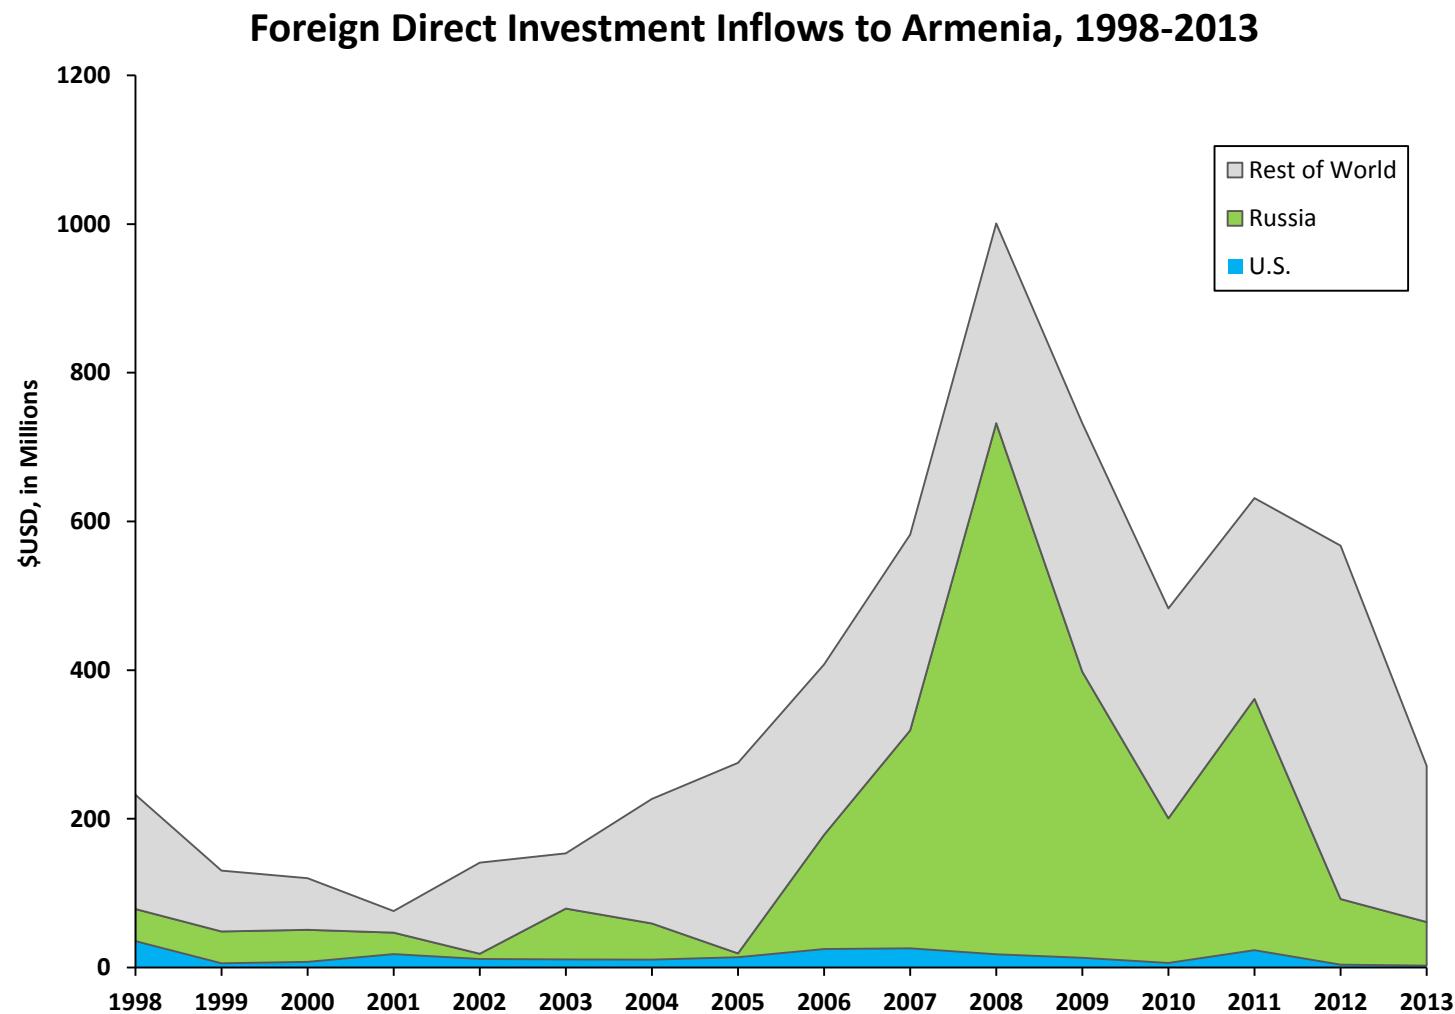

Figure 37

Percentage of Energy Imports in Eurasia from Russia in 2014

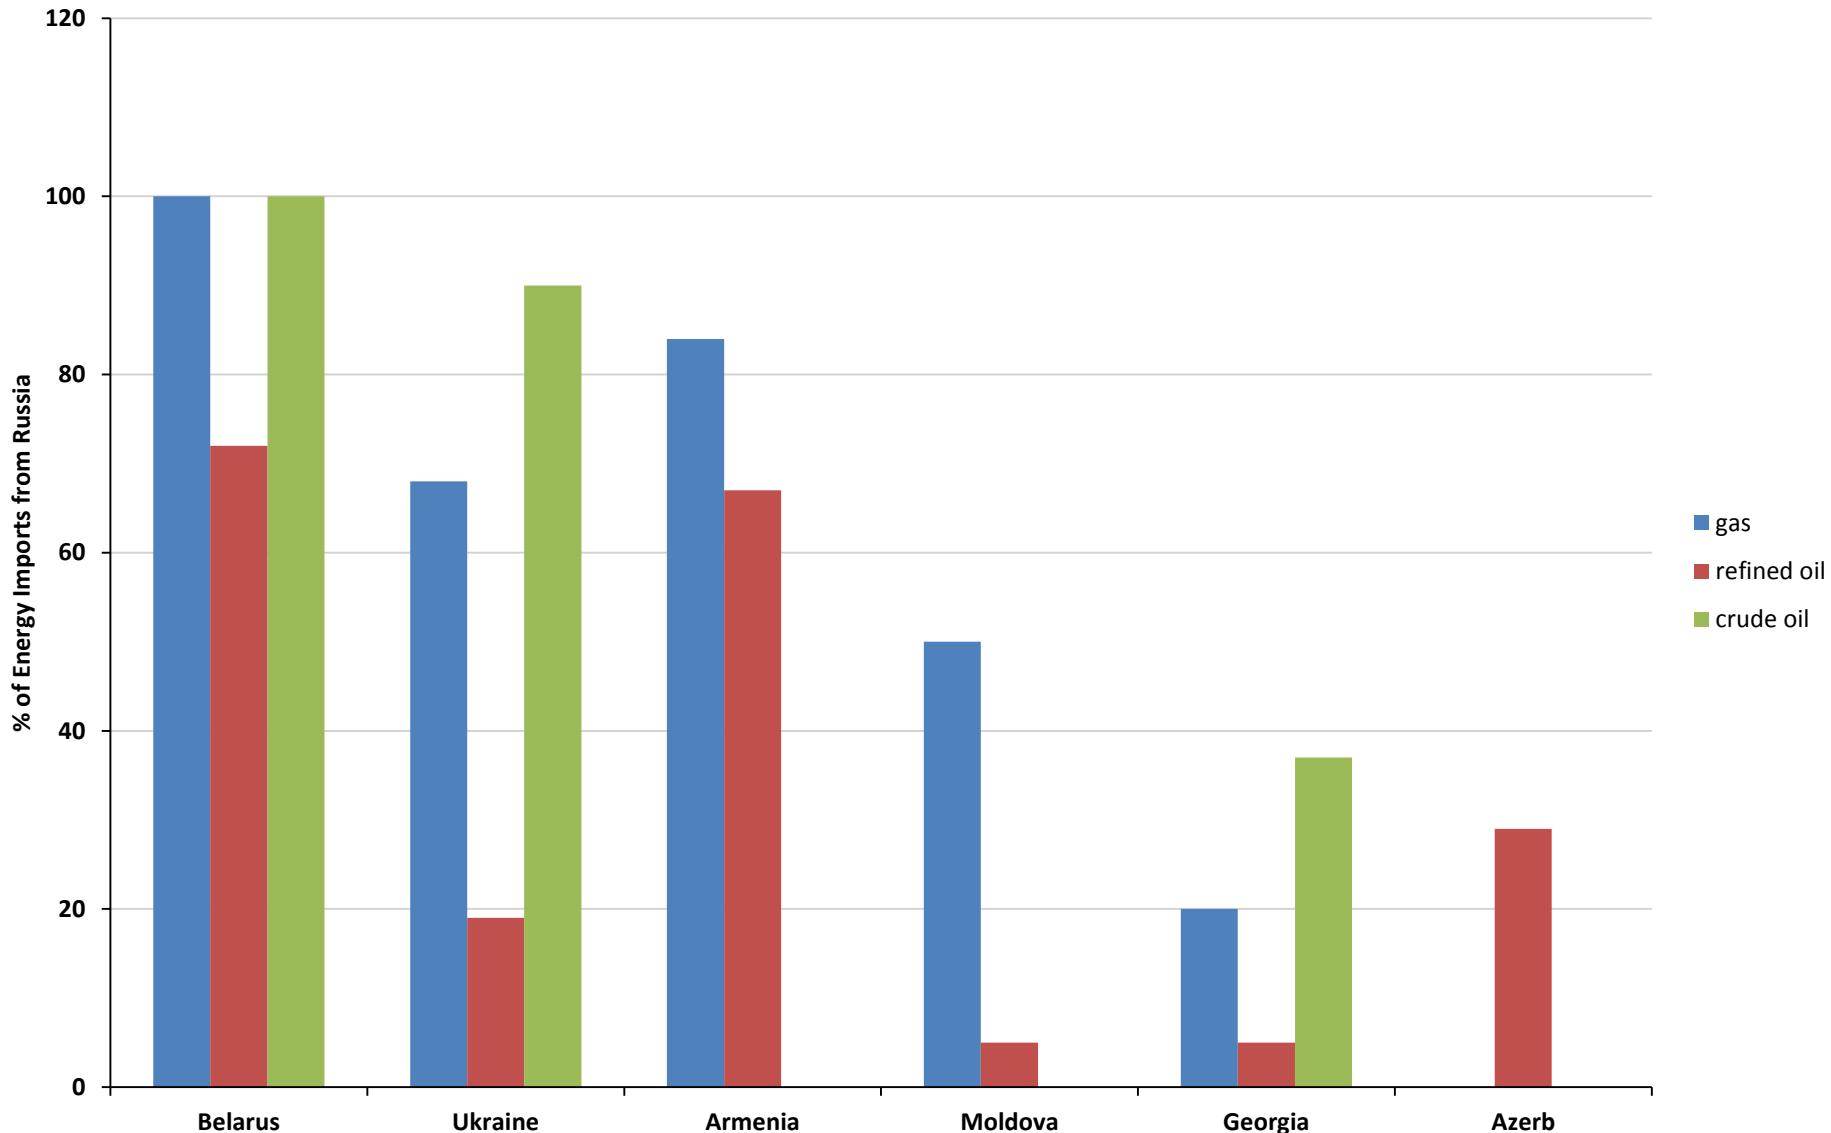

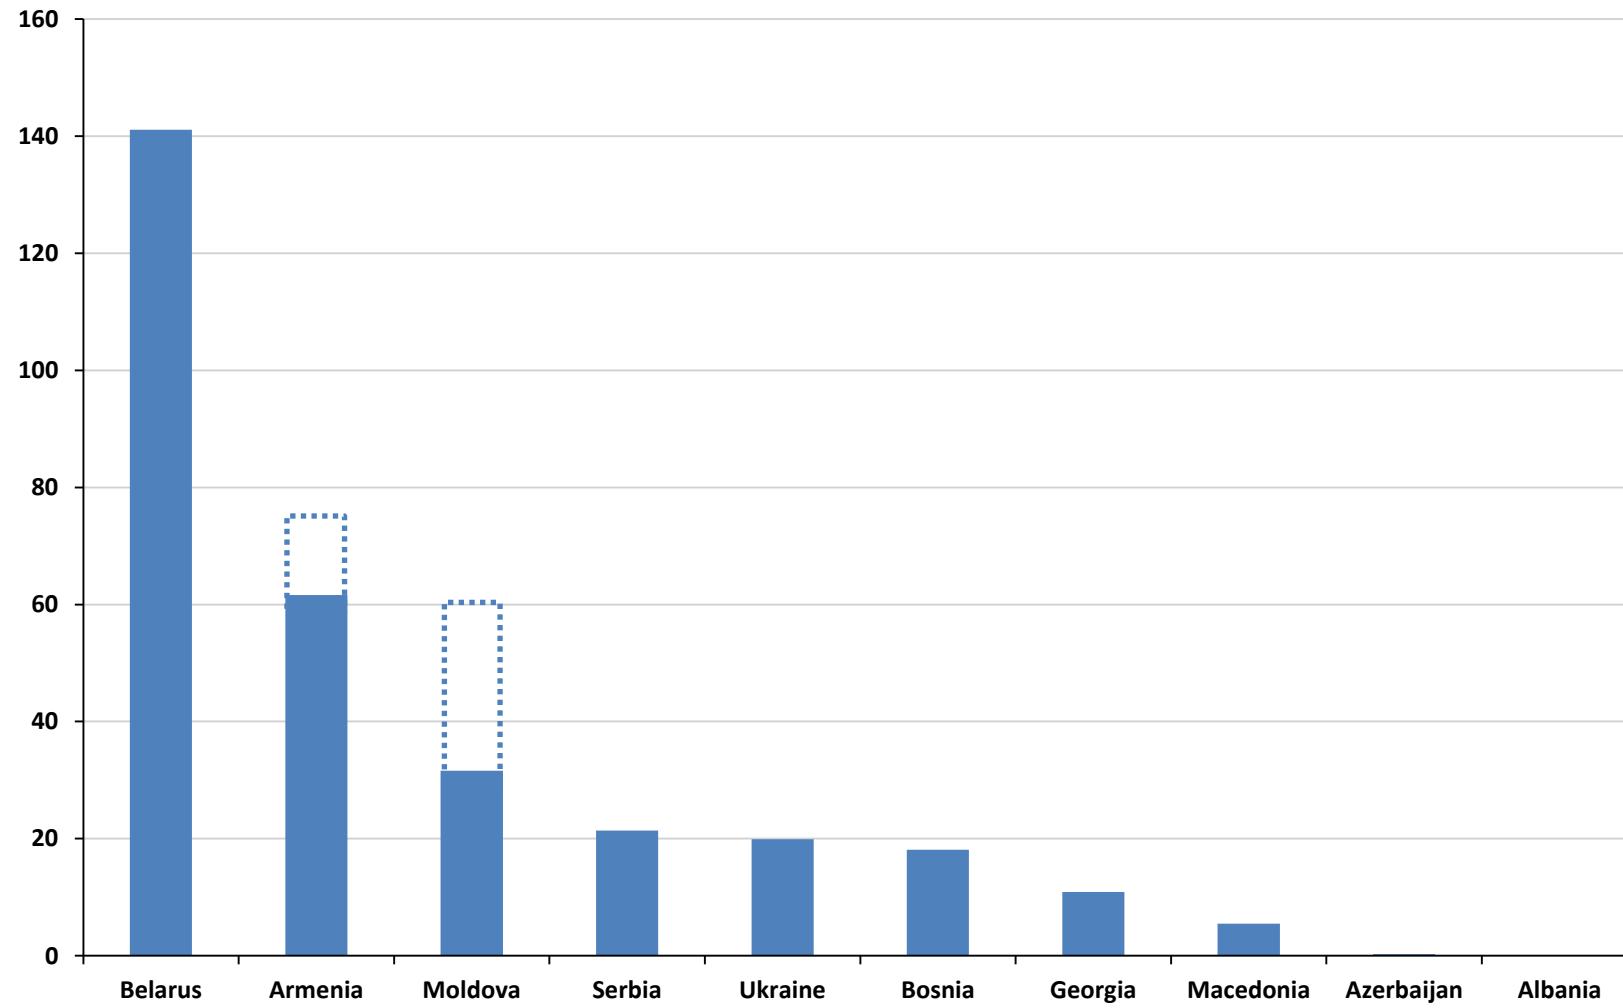

Figure 38

Imported energy from Russia as % of total energy consumption in Eurasia and the Balkans in 2013-2014

BP, *Statistical Review of World Energy* (June 2015); International Energy Agency (2013); Atlas of Economic Complexity (2015). Energy imports include natural gas, crude oil, refined oil, electricity, and coal. Energy consumption includes those energy (import) types plus hydropower, nuclear, geothermal, and biofuels. For Armenia and Moldova, estimates are a range.
